Slow,
It's is a shame you have to:

1- talk like this and
2- have so little respect for others and
3- have no ability to rationally discuss prows and cons complex issues and
4- have a poor understanding of what makes a good ham and
5- have so little understanding some real-world practical aspects of this issue and most importantly...
6- show such poor ham characteristics.
7- and probably have so little real knowledge of ham radio, is my guess. and
8- be a troll

If you're also a 20 WPM extra, then we can easily do without your immature attitudes and behaviors here and on the bands.

Hey guys! it is also a shame you get drawn into these types and feed their small minds.

73, Steve, K9DCI
Please carefully note the date of my Extra when you check QRZ.

Nope.

I've never stalked you.

I've never threatened you.

But I have MORE than adequate evidence that you've done those very
things, and in no uncertain words, Morkie.

You ARE your own worst enemy.

There was nothing "impled" about it. You said you were going to
kill me.

The threat of deadly force where no immediate threat of injury
exists is a violation of both Michigan and federal law, Mork.

Sure you do. To state otherwise is to say that you are insane.
Courts have stated over and over again that hateful speech is inciteful
and ios the responsibility of the person taht utters it.

There's not a court in the land that wouldn't consider your wanton
abuse of the memory of my daughter to be anything LESS than hateful.

It's suicidal to do it in Michigan.

You're not just stating this in Michigan.

Nope.

Not at all.

There's nothing to address there. Nothing that's not been convered
a thousand times before, that is...

> > Unlike you, I have a life outside of RRAP.

Nope.

Judging by the sheer volume of your posts, the times you posted
them, and the number of alternate screen names you use to get around
posting limits, it appears as though you spend over 18 hours a day in
front of your computer...Or at least keep comiong back to it, no doubt
to try and get "the last word" in.

I have other things to do than try to play the tit-for-tat role
with you.

Besides, it only takes a few lines and a few posts to make a fool
out of YOU!

They need the little guys in white coats from the local friendly asylum to come for a visit and take them away. It's obvious that Scheissman is a mentally unstable individual. Not to mention one who lacks basic civility in any case. If one psychoanalyzed Roger, you would find the mental processes of a teenage boy rather than a 50 year old. It's all to obvious when all he can do is to pop off his mouth and make inane and often stupid comments on a daily basis. Even the town drunk has more sense than he.

Interesting how you use the same IP numbers though! Are you such a delusional fraud that you have several different accounts going through the same IP number. Duh boy. Is that hard to figure out? Or are you hiding something about yourself? Is there a reason why your oblong head is so well planted in your ass. It's really obvious that you and these other posters are the same because you use the same words, terminology, and filth. Duh? clear evidence of YOU doing that very thing.

What's to get through?

As pointed out by another poster in this thead, there's some basis
in truth as to your cuplability in the original post, Mork.

Maybe you didn't do it...Other than being very ugly in it's
content, the original post was typo-free. Or maybe you just got your

You're the coward, fatboy.

Not man enough to be a man, so you pretend to be a girl part time.

Now you keep insisting that I "promised" to do something, yet
refuse to show the work.

And no where in there was a "promise", suggested or otherwise.

I've not "backed out" of anything, Mork.

And I bet he'd have a cow finding out what a pervert his daughter
married.

Now...Are you going to pony-up the "proof" of my alleged "promise",
or just go ahead and admit that it's yet another of your ficticious

Yes, Yes, yes,
but what are your thoughts on the following:

No more automatic renewals. Individuals must retest and pass
all elements required for their license class.

The passing score for written exams needs to be raised to 85%.

Code elements should be 13 wpm for General, and 20 wpm for Extra.

Make the no-code Tech license one year non-renewable.

Hello Sad:
All of your points are valid. This has been going on for a long time,
not only here on usenet on the air as well.

The gay freak not only attacks hams but also insults our fellow radio
hobbiest over in the CB & shortwave groups as well. No one could
possibly have known that Mark was a homosexual if he didn't brag about
it. Now the sick freak has even involved his elderly father in the
mess.

Don't worry about it,Sad. This too will pass. With his queer lifestyle
it won't be very long 'till the HIV sets in.

Meta-comment: I think that if all of the ideas you propose were
actually enacted into regulation, and then ten years were go by, the
United States Amateur Radio Service would be unlikely to have more
than 1/4 of the number of licencees that it has today.

That's great if you want to create a "private club" for a few years
after that.

However, it's lousy if you want there to actually *be* an Amateur
Radio Service twenty or thirty years from now. With so few licensees
and as little activity as I think there'd be after such a decimation,
the odds are good that a lot of the U.S. amateur radio bands would be
"re-purposed" for other spectrum users.

>No more automatic renewals. Individuals must retest and pass
>all elements required for their license class.

Unlikely to pass, due to the cost and bureaucratic overhead.

I'd guess that at least a third of current licensees coming up for
renewal would decide not to bother, and let their licenses lapse (and
that's in addition to the rate of non-renewal which takes place today).

>The passing score for written exams needs to be raised to 85%.

I'd have no real objection to this. Dunno if it's a good idea or a
bad idea.

>Code elements should be 13 wpm for General, and 20 wpm for Extra.

This will never happen, for two major reasons:

[1] CW is no longer an international treaty requirement AT ALL.
The results of the WARC conferences made it clear that the
international community considers CW a useful mode, and a big
part of amateur tradition, but that it's no longer in sufficient
use in military/commercial applications to justify making it
a legal requirement for amateur HF licensing.

[2] The FCC has made it quite clear (in their responses to the
numerous petitions filed about [1]) that they no longer consider

it in the public interest to require CW proficiency for an
HF license. They are proposing to remove the CW requirement
entirely.

In its filings, the ARRL has proposed retaining the existing 5 WPM
requirement for Amateur Extra. The FCC's response adds up to "No.
Not justified. No CW requirement at all."

My understanding is that the ARRL's comments received from their
membership, and the comments received directly by the FCC in response
to the various petitions, are pretty consistent. Only a small
percentage of the people who have commented, feel as you do. Most
commenters either want to eliminate the CW requirement entirely (as
many other countries have done), or eliminate it for General and
retain it for Extra.

What you propose is also unlikely to happen because the FCC and ARRL
both remember what happened the last time they tried tightening the
rules and raising the requirements and trying to force people to
upgrade. My understanding (from reading - I wasn't licensed back
then) is that the Powers That Be concluded that this sort of incentive
licensing pressure created more resentment, and did more damage to the
health of the amateur radio community, than whatever benefits came
from it justified.

I've read statements from the FCC, over the past few years, to the
effect that they're just not interested in taking operating privileges
away from anyone.

>Make the no-code Tech license one year non-renewable.

Once again, I think that the number of licensees that the Amateur
Radio Service would lose (or would never get in the first place, once
people learned of the non-renewable status) would outweigh the
possible advantage of this approach (giving licensees more of an
inducement to increase their level of knowledge, and upgrade).

There aren't many who can type 60 wpm, but then again, maybe most of
them are on high speed CW. <:-))

I "touch type" and back when I was a grad student could type a bit
over 60. Now days I have to make too many corrections to maintain
that.

one to two hours a day on CW.

There are few people who can type that fast. However on CW you type
your response while listening to the other station so the transmission
speed can be well above your typing speed.

I can count on the fingers of one hand the number of people I've met
in school and industry who could even approach that 100 wpm.
The old electric portables used to jam the keys at much over 60 while
the "selectric" could go a fair amount faster. When in college my
daughter wore out one of those and she could out type it.

I shouldn't count the college classes when I was a GA teaching the
intro to CS, out of 195 students I only had about 10 that could type
and none that could keep up with me.

Unfortunately, age is catching up and I've had to slow down with the keyer and I'm not nearly as fast with the keyboard as I was. I can probably still type at 40 wpm after mistakes are taken out. 60 if I don't go back and correct.

sc,

Lesee... Well, I believe you have some discussable concepts here.

In other areas there are currency requirements. Flying, for example. If
you haven't kept up, you need refresher flights with an instructor. We
first try to outline what is gained / lost over time and whether re-testing

can address these issues. Old timers will be required to learn about QPSK and all the modern concepts.

Then we go from here.

One general area you seem to fail to address is some of the practical aspects regarding number of licensees and the viability of retaining the Amateur Service all together. If the number of Hams keeps declining, will there be ANY licenses...and do you (in general) want to preserve something, or kill it all if numbers fall, manufacturers stop producing products, etc... This can not be ignored in the rest of the discussions.

I know Extras who couldn't build a thing, yet are active, intelligent and law abiding. They have interest I can discuss with them. I also know no-code'ers that are the most serious hams around...not to mention several that came from CB and are now died-in-the-wool-hams.
I also hear Extras on the air that should aim for a tree the next time they drive a car.

Is learning CW a "right of passage" and an effort that helps to strengthen the Ham...yes...for some. Does it guarantee an excellent, expert Ham? Not by a long shot. That comes from elsewhere.

However, based on the post of yours that I responded to, I choose not to go further since you have demonstrated such a poor attitude, I feel it is not worth the time exploring with you. Ill pick more important battles. Enjoy your Hamm activities (if you have any) and be content. you brand or devisiveness accompliches nothing except, perhaps allowing a few of the responders to vent and possibly hear (though by accident) some reasonable points.

Do you have a call, name? With a pseudonym like yours, I'd think you'dbe on the other side. What are you affraid of?

> The passing score for written exams needs to be raised to 85%.

How about the licence grade depending on the score? How about much more strict requirements for on-air procedure. I hear many who have licenses and still don't know how to communicate efficiently in emergency drills or ID properly.

> Code elements should be 13 wpm for General, and 20 wpm for Extra.

CW only was a requirement due to international treaty in the first place. That is no longer the case. You are clrarly hung up on CW. WHY? What does it bring / guarantee? Why is CW so much more important that all other aspects of on-air operation?

> Make the no-code Tech license one year non-renewable.

This still comes directly from the "CW or nothing" concept.

My father was NY state champ at over 100 wpm on a manual typewriter in about 1940. I always figured Bucky the milkman must have been my real father, since I was at 15 wpm before typing class, and 12 after a year of it. I still type with 4 fingers, and have to use my eyes to figure where they should go. And I have typed for a living for the last 30+ years. :)

Yeah, but the senile old farts still believe they are not only
first responders but that they are on the cutting edge
of technology. Let them wallow in their delusions of how
important ham radio is.

Our "radio" club is more of a social circle. Rarely is anything
technical dicussed, just gossip about other hams. We
meet at Golden Corral. When someone brings their kids along,
the senile old farts start yammering about future hams, and when
is he going to get his ham ticket? Meanwhile, the kids sit
there and eat with iPods stuck in their ears, cell phones in their
hands, and chattering about IM and MySpace.com All of
which may just as well be a foreign language to the delusional
old farts. LOL!

Serves the OF right! They should not have invented and developed that stuff,
shudda stayed with stone tablets.
This year we celebrate Tesla's 150th birthday - da first hams and greatest

I don't think that's entirely true. I'm working for my license.
Learning code, radio and antenna theory, SMT, and every other thing I
can think of. Got an ARRL Handbook ('91), a cheapo hand key, and a G.
West test book. Do I think code should be required? Yes. IMO,
knowing what I'm doing is what being a ham is all about. Knowing code
is part of that. In fact, with the possible spread of BPL, CW may
again become the only way to punch through. If I just wanted to press
a button and yap, I'd buy a CB or a cellphone.

Wow, got me beat. All I have is an Icom 746 that has been opened up.
Basically transmits from 1-170 Mhz. I do have an Icom 2340H that does the
same. I have several other radios, 2M, 440 that don't merit mentioning.

Don't need to. Went to Dayton last
weekend and only ONE-THIRD (1/3)
of the total outdoor flea market spaces
were taken, meaning occupied. Not only
that, I was actually able to park in a lot
at a strip mall just down the road from
the Arena. I have been going to Dayton
since 1980. I've missed going only 4 Years
out of 26. This Year was the absolute
smallest attendance I have ever seen.
This alone should tell you something folks.
I doubt that I'll be going again next Year, if
ever again. Finally do not believe the "official"
attendance figures. They lie thru their teeth
worse than 5 pre-owned auto salesmen.

If I have to look at the keyboard I'm in trouble. My fingers know
where the keys are, but I don't. <:-)) If I'm on the telephone and
taking notes it'd be faster to use a pencil. OTOH I can at least read
my typing.

I was net control for a weather watch net with tornado warnings out
all around us (Lower Michigan). When I did the summary after the net I
realized I need a head set with VOX built in so I can have both hands
free.

When I was a kid I bought a typing book, borrowed an old mechanical
type writer and taught myself. It really didn't take all that long.
I'd guess It took about the same time to get to 60 WPM on a mill as it
did 20 on a key.

My wife remarked that having worked in clerical and administration for
the state she knew a number of people who could type 100 WPM. I asked
if that was mistake free as corrections take time. It turned out they
were considerably slower when mistakes were taken into account. OTOH
when I was a sysadmin for a large corporation one of the system admins
could type so fast the keyboard buzzed. You could watch the
characters flow across the screen and in both directions. If he made

a mistake it might take him two words to recognize it, go back and
retype. I think he still was making over 100 WPM.

My wife and son can both type, error free at about that rate. I took
a typing course in the summer when I was in high school and passed the
10wpm error free test. I think in my case it was 10wpm and at least one
word error free :-)

My first wife's sister was able to type faster than an IBM selectric typewriter
(165wpm) error free. She won awards and contests for it.

Note the comments made by Roger that others have run from doorstep visitors...he quotes Les Locklear, a known turd, who authored a bogus "account" of Oris Grim visiting Lloyd some years back. Nothing of the sort happened, but that has not swayed Roger from proclaining this as fact.
Roger, on the other hand, has gone to great lengths to either deny or say nothing of Dave's up front and honest visit to Roger's front door just a few weeks ago.
While Roger accuses Lloyd of being a coward, it was Roger who hid behind HIS door and cowered in the back room until Dave and his wife went away.
Roger first claimed he was home and chose to not answer the knock. Later, as all Roger lies go, he dummied up yet another story and claimed that his girl friend was alone in his house and refused to answer while Roger was at a local grocery store.
This is false. Roger has no girlfriend. He was home when Dave knocked on his door and Roger hid, cowering, in the rearmost corners of his house.
For Roger to accuse Lloyd of hiding from "visitors" is the ultimate of hypocrisy.
It was Roger who, afraid, ran to the back room and hid from Dave.

Dave and his wife were up front and honest. It was Coward Roger (ab8mq) who hid in the dark recesses of his 600 sq foot home while dribbling urine down his leg.

This was e-mailed to me this morning by Oris Grim an old friend.

I happened to be traveling through Huntsville, Alabama early this morning, I deceided to stop in Athens and see just how tough Lloyd Davies was going to act when he saw me in person.

Many of you know that a few years ago, Lloyd got smart with several people in the Deja Newsgroup (now Google) and I issued a challenge to him. I told him I would be attending the Dalton, Ga. Hamfest if he wanted to continue the conversation. He said he would be there and he was going to kick my ass.

Well, Lloyd was a no-show and continued the verbal assault on the newsgroups. He always talks tough behind his keyboard. And, I understand he is now doing the same sort of thing on the NIM Busters Board.

Well, about 8.35 this morning (December 23, 2004) I located his apartment in a nasty looking section of town. I'm a pretty good sized man, but I put my gun in my back waistband after exiting the car. I located his apartment and knocked on the door. The doorbell was missing and bare wires were sticking out of the wall. I heard someone say I'm coming and shortly the door opened with a safety chain lock still engaged. He asked what I wanted and I introduced myself and asked if we could have a conversation. He turned white as a sheet and attempted to slam the door, but I already had a foot wedged in the opening. He started shaking uncontrollably and was shouting leave me alone, leave me alone! I told him he didn't seem so tough now face to face and then noticed a putrid odor of urine and he was pissing his pants and crying like a baby. Please leave me alone Oris he said, I was just having fun and meant no harm, please leave, please. I could see the filthy floor of this apartment and the dirty floors and the stench of a grown man pissing on himself were almost enough to make me want to vomit, and I don't have a queasy stomach. Upon telling him that this time he would escape a ass kicking and not to ever get a smart mouth with me again and a verbal yes from him, I departed. That apartment complex looked like a crackhouse, niggers everywhere, filthy grounds and stairwells. Junk cars everywhere and garbage overflowing the garbage cans.

This Lloyd is nothing more than white trash that delivers pizzas and could afford to take a trip out of town if the ticket cost $5.00.

I'm sending this to a friend who despises Lloyd Davies and he wanted to post it for everyone to see just what kind of chickenshit asshole this Davies really is.

Google has no such thing archived. As a matter of fact, when the alleged email from Oris appeared on NIM Busters, Oris hadn't even spelled his last name correctly! The forger had managed to trip himself up with sloppy work.

After the spelling error was pointed out, Wiseman and pals mysteriously showed up with a new, correctly-spelled forgery.

Oh indeed it WAS a forgery. And the forger outed himself in a couple of different ways: (1) Oris doesn't write in the style used, and (2) Oris spelled his own name incorrectly.

Thus the forger looked like the fool that he is.

I *LOVE* it when you hand stuff like this to me. You really believe that the statement above is obviously in error, don't you? In fact, you are revealing your own profound ignorance.

We covered this topic a long time ago, and even your old DeVry instructor agreed that I was correct. Basically, you can have zero loss and infinite VSWR on a line (an ideal twin lead with an open termination is a simple example), or you can have total loss with a 1:1 VSWR at the transmitter end of the line. A very lossy coaxial line makes an excellent dummy load, delivering no power to an open termination, and yet showing a 1:1 VSWR on the transmitting end. You can also come up with a 1:1 VSWR for a completely lossless, ideally terminated line, thereby making it quite obvious that line loss and SWR are not directly related.

It's like the fact that you hid from Heil and his wife. You hid from Tunder, and you've been running around hiding from the rest. But could you expect much more from a 50 year old momma's boy? Not to mention you've lied about your retesting, lied about everything else. Not as if anyone would believe you anyhow due to your record.

Slow,
Can you address any of my comments in my previous, or here ?

> My arguement has always been for the quality of the hams.

OK. Given this, is it true that everything else is unimportant to you -
only the quality? [there always have been jerks around.]

> You appreciate something more that you had to work to achieve, and respect
the rewards
> it gives.

I think I can agree with this. Give a kid a car or whatever, and he's
more likely to treat it badly. Make him work for it and he appreciates the
value and shows the appropriate care with it..

> Cheapening something makes it disposable.

Yea.... I understand that having to do the CW thing is more work and
more likely that the licence will be valued, but what about putting the
prospective ham through other, more rigorous hoops, like electronic theory,
emcom, etc. Why won't more modern "hoops" work the same way to bolster the
individual's respect for the service?

> Ham numbers are declining.

I believe this is true, but what is you reason for stating this? Are you
glad this is happening or sad or indifferent?

The numbers don't matter, quality does. Reasoning a service is good because it has lots of members, CB should be great then, but it's like a kindergarten.

The Armenian judges gave this a 9.8 on the Olympic Troll-O-Meter,
but they were overruled by the umpires in instant replay, who
awarded it a 2.6.

The Armenian judges lodged a formal protest!

It was sufficiently trollish, of course, but way too obvious.
It was poorly written, poorly executed, and was so incredibly
lame as to lack the true drawing power of a really masterful
troll. Maybe as high as a 3.1 for the intense stupidity of the
premise, but a 9.8? Never! The Armenian judges tear their
hair out, throw their balalaikas down in dismay, and perform
the traditional Armenian Dismay Chant! They demand a recount!

In his case, are you saying that he has done something in International affairs? That explains why he was living with his momma right? At the tender ages of 40 through 50. .....

You should ask Roger how he garnered the attention of the FBI a couple years ago. Seems he was posting his usual filth (Lloyd stalking) on the Nim boards and using an FBI email address as a "reply to". Story is that some of the Nim dudes responded to his comments using the email address Roger gave and Lo! A month or so later two FBI Agents (a man and a woman) paid Roger a visit and had a little talk with him. Roger, of course, blamed this unwelcome attention on others who, he said, "set him up." Trouble with that was the Agents had his IP address and he couldn't weasel out of it. He was given a stern warning and then ceased using the FBI email addresses.
Woger even posted a couple or three nasty comments about the visit on Usenet and then said no more about it. I guess he thought we'd forget about it.
Now, wouldn't you think that anybody in his right mind would have learned from this? This guy has lost more accounts than we can count, has been tossed from a news server by Steve Geilda (sp?) and even had to be chastised by Chris Caputo for misusing Altopia. Caputo will not allow Roger to subscribe to Altopia (booted him off long ago) and once described Roger as a "nut case".
Poor Roger. He just doesn't get it. As one poster noted, Roger is fifty, going on thirteen. Even eighth-graders have more sense than he.

Hey..............this

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=9728370082&rd=1&rd=1

looks like a nice box. Why are you assholes cutting him and his
product down? I wasn't looking for a new box, but I think I'm going to
watch this Item and bid accordingly. At Least he brings interesting
stuff instead of the usual homo posts you two faggots crave so much.
Plus check out his great feedback.

Hey Steveo, you going camping with retarded markie?

indeed I think at some level that is his aim but he can't finsh the job
so he tries to get one of us to do it, las he even fucks that up by
hiding whenever someone may have shown to do him.

I guess the best we can hope for is that he stroke out or that story

Who said these subjects are 'radio operatiors'? They're just sick
people with homoerotic fantasies who flick people s###. They never left
third grade in spirit. I don't believe they'd learn anything if someone
beat the crap out of them even. C'est la vie.

"Distance Learning" is fast becoming a cash cow at main-stream institutions, not just the deVrys of the world.

I evaluated three such institutions which offered MBAs, and two which offered JDs.

Distance Learning was more expensive, per unit, than bricks-and-morter, for those which offered both options.

With specific reference to MBAs, one institution offered a certificate program in that component of a conventional MBA which is of particular interest to me: investments and portfolio management.

IOW, I had the flexibility to focus on that component, and receive a certificate, or I could complete the conventional sequence, and receive a degree.

The certificate cost about one-half the degree, in terms of dollars, but about two-thirds, in terms of time.

I have yet to discover a Distance Learning program in Amplifuzz maintenance, surely an "area of opportunity" for deVry!

Hi........

I know exactly what you mean. My wife and I have decided an open marriage was the way to go. She can now actually cum when she watches me being serviced by guys, and BTW I like it ,too.

I used to have her give me head, but something was missing. I found for myself that only another guy can properly service another guy. I like the taste of sperm,too.

My wife has found that her best method to cum is a well hung black man streatching her asshole.......I like to lick his balls as he's pounding her ass!

Hope this helps, as it did for us.

Your pal cuhulin says that you need to visit Petal, Mississippi
if you like hummers so much. You can find cuhulin exclusively
in rec.radio.shortwave (those poor people).

You think that they get hurricanes in Minnesota, and you passed
a ham test? Ewwwwww!

P.S. Leave those folks in rec.birds alone. They're ignoring you
in spite of the many posts you made for the past week, just like

I thought ITT Tech did that, but they seem more enthused about turning out cops.

I am also certain that "Hutch" was a cop that was "turned out" a few times in Bay CIty.

The ARRL Letter
Vol. 25, No. 21
May 26, 2006
****

==>RILEY HOLLINGSWORTH TO AMATEUR RADIO COMMUNITY: "LIGHTEN UP!"

FCC Special Counsel for Enforcement Riley Hollingsworth advised those attending the FCC forum at Dayton Hamvention 2006 to try kindness instead of confrontation when problems arise on the bands. Hollingsworth spoke May 20 to a nearly full house at Hara Arena, and for the most part he praised the behavior of the majority of Amateur Radio operators, especially those who volunteered in the aftermath of Hurricane Katrina last year. But, he noted, radio amateurs still could be more courteous and less inclined to fly off the handle at some perceived on-the-air offense.

"You need to lighten up and not embarrass the Amateur Radio Service," Hollingsworth advised. "All of us make mistakes, especially with the new features you have on radios today. It's very easy to make a mistake, to be on the wrong frequency or be operating split and not know it--there's a hundred ways to make mistakes." Hollingsworth said experience has shown him that at least 75 percent of the interference complained about is absolutely unintentional.

In Hollingsworth's view, radio amateurs all too often are hypersensitive and rude. "We have a radar going to detect offenses at all times, we assume the worst in people, we rarely give people the benefit of the doubt," he said.
He joked that if there were three amateurs in a town, there would be two Amateur Radio clubs.

"And there'll be two hamfests with 20 people each, because they wouldn't dare consolidate them," he added.

Hollingsworth acknowledged that "certain problem operators" remain, but the real troublemakers are rarely the newcomers to Amateur Radio. "If there's a downfall in Amateur Radio, it won't be caused by no-code Technicians or codeless anything else," he said. "It'll be caused by the microphone--no doubt in my mind." He advised his audience to ignore the troublesome operators and not give them the attention they crave by engaging them on the air.

"Now, think about it: If what you're hearing annoys you, or angers you or is stupid, use the 'stupid filter,' which is that big knob--that VFO that will take you somewhere else," he quipped. "It's the largest knob on the radio."
He recommended moving to another frequency or even another band altogether.

Hollingsworth praised the Volunteer Examiner program as "outstanding" and noted there had not been a single complaint in the past year stemming from an examination session. He also said the Amateur Radio community should have a greater appreciation for what the ARRL is doing on its behalf.

"Most of you have no idea how much work is done in Newington for you and the Amateur Radio Service generally," he said. "I see it every day, but I think you have no idea of the hard work and dedication that comes out of that office up there, and I don't think we would be there if it weren't for [the League]."

"This country's communications infrastructure needs Amateur Radio," Hollingsworth emphasized, praising Amateur Radio's overall performance following Hurricane Katrina. "You have a tremendous amount to be proud of."

He also suggested that radio amateurs have an obligation to stay informed about what's going on in Amateur Radio that might affect their

activities.
"You have to not only keep up, you have to lead the way, because it's in
your charter," he said, pointing to §97.1 of the Amateur Service rules.

Hollingsworth noted at the start of his talk that he could not address any
questions dealing with the FCC's long-awaited decision on the Morse code
requirement (Element 1), because he works in the Commission's Enforcement
Bureau. "We don't meddle in rule making," he explained, but added that he
didn't expect CW to decline if the FCC does drop the 5 WPM Morse requirement
for all Amateur Radio license classes as it's proposed to do.

The FCC Wireless Telecommunications Bureau (WTB) handles Amateur Radio rule
makings, Hollingsworth noted, including the "Morse code" proceeding, WT
Docket 05-235, and the so-called "omnibus" proceeding, WT Docket 04-140. The
WTB has said it will rule first on the omnibus proceeding, then tackle the
Morse code proceeding, but it has not indicated when to expect either Report
and Order.

No representative from the WTB was at Dayton Hamvention this year.

I wonder if Dr Death has lost count of the amount of blow jobs he's

Mark. I have an old bottle of beer that has been in the cupboard for a few
weeks now. I was going to make beer batter with it but will be willing to
donate it to you so you can pour it up/down your anal cavity to alleviate
your "problem".
It comes with instructions, Mark. The first step involves removing your head
from your rectal cavity so as to allow the beer to reach your swollen
hemorrhoids.

Oops. I forgot. You LIKE keeping your head in your rearmost cavity. It keeps your ears warm in the cold months and keeps you from seeing what is going on in the world around you.

There was no "implied promise", Mork.

There is no such thing as an "implied promise".

You could suggest One Dollar (the DOLLAR is the unit of American currency, fatboy, not the "doloar") and it might as well be one BILLION dollars, Mork.

You'd never pay it.

Mork, YOU have been caught on the short of of NUMEROUS "bets" in this forum, none of which included money, and you've never once kept your word.

Not once.

Part of your avowed approval of lying, no doubt.

You ARE a documented liar and I wouldn't trust a "bet" made with you any farther than I could pick you up and throw you!

Morkie, sending your "father in law" copies of the dispicable crap you spew in this forum is a long way from being ANY sort of a "crime", federal or otherwise.

"Riley said...," not the ARRL.

> <F L U S H E D>

Unflushed

==>RILEY HOLLINGSWORTH TO AMATEUR RADIO COMMUNITY: "LIGHTEN UP!"

FCC Special Counsel for Enforcement Riley Hollingsworth advised those attending the FCC forum at Dayton Hamvention 2006 to try kindness instead of confrontation when problems arise on the bands. Hollingsworth spoke May 20 to a nearly full house at Hara Arena, and for the most part he praised the behavior of the majority of Amateur Radio operators, especially those who volunteered in the aftermath of Hurricane Katrina last year. But, he noted, radio amateurs still could be more courteous and less inclined to fly off the handle at some perceived on-the-air offense.

"You need to lighten up and not embarrass the Amateur Radio Service," Hollingsworth advised. "All of us make mistakes, especially with the new features you have on radios today. It's very easy to make a mistake, to be on the wrong frequency or be operating split and not know it--there's a hundred ways to make mistakes." Hollingsworth said experience has shown him that at least 75 percent of the interference complained about is absolutely unintentional.

In Hollingsworth's view, radio amateurs all too often are hypersensitive and rude. "We have a radar going to detect offenses at all times, we assume

the
worst in people, we rarely give people the benefit of the doubt," he
said.
He joked that if there were three amateurs in a town, there would be
two
Amateur Radio clubs.

"And there'll be two hamfests with 20 people each, because they
wouldn't
dare consolidate them," he added.

Hollingsworth acknowledged that "certain problem operators" remain,
but the
real troublemakers are rarely the newcomers to Amateur Radio. "If
there's
a
downfall in Amateur Radio, it won't be caused by no-code Technicians or

codeless anything else," he said. "It'll be caused by the
microphone--no
doubt in my mind." He advised his audience to ignore the troublesome
operators and not give them the attention they crave by engaging them
on the
air.

"Now, think about it: If what you're hearing annoys you, or angers you
or
is
stupid, use the 'stupid filter,' which is that big knob--that VFO that
will
take you somewhere else," he quipped. "It's the largest knob on the
radio."
He recommended moving to another frequency or even another band
altogether.

Hollingsworth praised the Volunteer Examiner program as "outstanding"
and
noted there had not been a single complaint in the past year stemming
from
an examination session. He also said the Amateur Radio community should

have
a greater appreciation for what the ARRL is doing on its behalf.

"Most of you have no idea how much work is done in Newington for you
and
the
Amateur Radio Service generally," he said. "I see it every day, but I
think
you have no idea of the hard work and dedication that comes out of that

office up there, and I don't think we would be there if it weren't for
[the
League]."

"This country's communications infrastructure needs Amateur Radio," Hollingsworth emphasized, praising Amateur Radio's overall performance following Hurricane Katrina. "You have a tremendous amount to be proud of."

He also suggested that radio amateurs have an obligation to stay informed about what's going on in Amateur Radio that might affect their activities. "You have to not only keep up, you have to lead the way, because it's in your charter," he said, pointing to §97.1 of the Amateur Service rules.

Hollingsworth noted at the start of his talk that he could not address any questions dealing with the FCC's long-awaited decision on the Morse code requirement (Element 1), because he works in the Commission's Enforcement Bureau. "We don't meddle in rule making," he explained, but added that he didn't expect CW to decline if the FCC does drop the 5 WPM Morse requirement for all Amateur Radio license classes as it's proposed to do.

The FCC Wireless Telecommunications Bureau (WTB) handles Amateur Radio rule makings, Hollingsworth noted, including the "Morse code" proceeding, WT Docket 05-235, and the so-called "omnibus" proceeding, WT Docket 04-140. The WTB has said it will rule first on the omnibus proceeding, then tackle the Morse code proceeding, but it has not indicated when to expect either Report and Order.

No representative from the WTB was at Dayton Hamvention this year.

14.275 is the new 14.313 Perhaps worse?

14.275 serves a USEFULL PURPOSE.
It draws all the toilet tics like cow flops
draws horseflies. By so doing it keeps
the rest of the bands clear for the rest of us.

Ham radio NEEDS it's own LOONEY BIN where
all the goofballs can gravitate to. That freq is 14.275

Nope. He didn't he wasn't even home at the time the "visit" supposedly
occured. If it did at all.

Let's see. You went from first saying that you weren't going to answer the
door to the Heils, to calling them stalkers, to next claiming that "you"
weren't home but your 'girlfriend' was there while "you" were at the store.
Now you are saying that this visit "supposedly" occurred.
You are a maniacal liar, Woger.

reading your posts nothing you can say or "reveal" to my fatherin law
can harmm my relationship in the slightest

nope my father inlaw knows I am bisexaul he would have if you were ot
lying about my wife gender steve, if my wife is male as you insit he
has to know about that

given the truth as it happens he knows I am bisexaul for that matter is
something I have in common with his daughter. He does disaprove of it
steve but it is not news to him

but your accusations are not true indeed some them he (my father inlaw)
would know are not true
I have not been caught on tap molesting anyone that is false
My wife is not male (and her daddy does know that for a fact, as you
would if you realy had had any contact in illiopis)
teaccching children to lie about their identity is not child abuse
that I have ever been a rssident in mental ward

however even true statement can be deemed harrasment you no doubt would
object if someone told your wife that "while your husband has never
been seen to rape anyone it is supected by some that he desires to sex
with other men" that is a true statement and yet if made by the US Mail
to your wife might well be harrasment

that statement in quotes is true since I certainly suspect it myself
based on your gay bashing

yep

just like that one
and lawsuit threat and that i was goping to be busted for threatening
you and that iwas ever going to be comitted to mental institution
your threat to kill me in Illiopolis your threats to enage in battery
and harrassment here in the UP

you make lots of idle threats

it is frankly insulting to see CAP use miliatary ranks as if they mean
something and not hold its officers to basic standard

the CAP allows it memebers to enage in behavoir that would get any
officer in the real service busted out at best or imprisoned but allow
it officers to engage in such activities without even the consequnce of
losing rank in CAP

it allow MAJ Steve J robeson of TN, to enage in a slanderous online
campaign of terror using false acusations of child molestion and
refuses to even take a compliant about such behavoir

how can CAP expect to be taken sriously and behave in this manner
Mark Morgan

Let me see if I understand, UnWiseman: You believe that you've
responded to me? We must be in some sort of distorted Roger Reality.

My home isn't atop a mine shaft. There is the potential for long wall
mining near or under my home at some point. If that happens, I'll be
quite happy to sell the place for many, many times what I paid for it.
I'll also be compensated for the large amount of free natural gas I
receive yearly. I hope that clears things up for you. You would count
yourself very, very lucky if a coal mining operation were to mine under
your box of a home with its sociopathic resident.

Most assuredly, yep. You've told so many lies, you can't begin to keep
them straight, porported friend of Roger Wiseman. You were home. You
hid behind a door. You're a coward of the worst kind. You're all
boast and bluster. You're a cockroach, hiding from the light. You
fear face-to-face encounter. You belong in a mental institution.

You don't seem to know to whom you are replying, but since you've
decided to post my telephone number, everyone should know that they're
dealing with:

Roger Wiseman, amateur radio callsign AB8MQ, formerly KC8JBO, (304)

Well, that's certainly your story, Wiseman. You and I know that isn't what happened when I visited your crackerbox. It isn't what happened when you fled your only Marshall County ARES meeting either.

You and I will run into each other some time and we'll have a nice discussion of your posts.

The 'facts' are that your posts were fraudulent. You got caught

The "motive" for you forging is that you can't get ahead unless
you do.

But now you've been proven a fraud.

I wasn't 'around' because unlike you I don't live for yet another

Nope. We have you claiming I welched a bet, but there was never a

Ergo we have Mark C. Morgan engaging in yet another lie.

We have you and Brainless Burke making allegations of things said

In otherwords, you're liars.

There is either a promise, or no promise.

If there WAS a promise, you have yet to provide it despite several
days with which to recover it and post it.

SO I guess in addition to needing to look up "cheating" in
Websters, we can now add "welching" too.

So much for your three college degrees and 248 IQ, fatboy.

yours.

Because I do have a female partner, married in December (27th) of
1990 in Poinsett County, Arkansas, Morkie.

See..UNLIKE YOU, Morkie, I can give a reference to a court in which
I have a valid marriage license. It was executed by a JP and is on
file there, Mork.

What's "truly sad" is that we get an in-depth look at who the REAL
threat is when it comes to violence in this forum.

What's even sadder is that the social services system in Michigan
is so overloaded that it will be a long time before they get around to
Mark C. Morgan.

And when Morkie DOES go over the edge and really carry out his

Lloyd Oh my the loser is back. Hey how come I missed you at the Dalton
HamFest
this past spring? You talked all that crap and then was missing from
the air
the news group and everything. Darn Lloyd I was looking so forward to
"meating
you"! You don't have a HF rig? Damn I can remeber many nights you
jammed Dan
and I. Not only are you a LOSER but a LIER TOO! Why don't you craw back

into
that hole and just go back to hiding you worm! If you don't believe I
was there
here are some photos http://www.dirtball.com/dalton.html
I still think your a loser!
Oris
N4CND

Then you hid behind your fithy HUD apartment door when Oris came
visiting a couple of Christmases ago:
This was e-mailed to me this morning by Oris Grim an old friend.

I happened to be traveling through Huntsville, Alabama early this
morning, I deceided to stop in Athens and see just how tough Lloyd
Davies was going to act when he saw me in person.

Many of you know that a few years ago, Lloyd got smart with several
people in the Deja Newsgroup (now Google) and I issued a challenge to
him. I told him I would be attending the Dalton, Ga. Hamfest if he
wanted to continue the conversation. He said he would be there and he
was going to kick my ass.

Well, Lloyd was a no-show and continued the verbal assault on the
newsgroups. He always talks tough behind his keyboard. And, I
understand he is now doing the same sort of thing on the NIM Busters
Board.

Well, about 8.35 this morning (December 23, 2004) I located his
apartment in a nasty looking section of town. I'm a pretty good sized
man, but I put my gun in my back waistband after exiting the car. I

located his apartment and knocked on the door. The doorbell was missing and bare wires were sticking out of the wall. I heard someone say I'm coming and shortly the door opened with a safety chain lock still engaged. He asked what I wanted and I introduced myself and asked if we could have a conversation. He turned white as a sheet and attempted to slam the door, but I already had a foot wedged in the opening. He started shaking uncontrollably and was shouting leave me alone, leave me alone! I told him he didn't seem so tough now face to face and then noticed a putrid odor of urine and he was pissing his pants and crying like a baby. Please leave me alone Oris he said, I was just having fun and meant no harm, please leave, please. I could see the filthy floor of this apartment and the dirty floors and the stench of a grown man pissing on himself were almost enough to make me want to vomit, and I don't have a queasy stomach. Upon telling him that this time he would escape a ass kicking and not to ever get a smart mouth with me again and a verbal yes from him, I departed. That apartment complex looked like a crackhouse, niggers everywhere, filthy grounds and stairwells. Junk cars everywhere and garbage overflowing the garbage cans.

This Lloyd is nothing more than white trash that delivers pizzas and could afford to take a trip out of town if the ticket cost $5.00.

I'm sending this to a friend who despises Lloyd Davies and he wanted to post it for everyone to see just what kind of chickenshit asshole this Davies really is.

you'd get that training wheel no code tech. You sure can't pass any
higher tests or the code.

>again is that why you have to post from

should really quit mixing the booze with the drugs, Marqueer. On second
thought, drink your self a keg and shoot up some more heroin maybe
you'll do a John Belushi.

Nobody is posting from the library, Marqueer, but you may be doing that

Unfortunately, it appears not too well..

...is not an answer to my question and this question provides no clue.
It implies I said that more jerks will result from those that will always be
there...I think. or that I want more...

OK, 85% is another kind of hoop. but Please answer my "Why" question.

OK, so this seems to answer my other question. While I agree, that in
a perfect world I would also restrict licences to only those who have a
decent head on their shoulders...however, do _you_ trust _me_ to decide
whose head is good?

These are my last questions:
Do you believe:
1- CW and 85% on exams will prevent or seriously limit the number of

knuckleheads who sneek through?
2- That I am lying when I tell of some no-code techs that I personally know are the most serious, level headed and law abiding hams I know?
3- That I am lying when I tell you that I also know some very good hams who came up through CB and are just as law abiding when on the ham bands as anyone, just as serious about being good citizens, do emergency prep work and help others?

> Reasoning a service is good because it has lots of members,

[is incorrent reasoning] is what the implied completion of that sentence is.

I agree. There have been and are some pretty wacko organizations.
...but...

CB should be great then, but it's like a> kindergarten.
Is a gross generalization. How often do you listen? How many "CB'ers" have you recently talked to?

I listen once in a while just to see what's going on and be able to speak with first hand knowledge, and do hear some garbage, but I also hear of how it has helped in aread and ther ewere no hams around to help. Also, some areas have been worse than others,

1- I believe you have a limited view of CB [and no, I haven't been a "CB'er" but I have carried a radio on a few, I think two long trips where I would have trouble getting into repeaters for long periods.]. I have been helped by "CBers".
2- what percentage of CB users are jerks?
3- What percentage of hams are jerks? then...
4- What percentage of jerks makes the service bad?

My suggestions
CW optional as it is now for *ALL* modes, but remove from the tests...except possibly for Extra - my jury's still out on this.
85-87% on tests, but
Much more on propagation, antenna systems and emergency station operations and emergency communications and laws.

Then some others in the "if I were Amateur Radio Service God" department...
Currency requiremets like pilots that include familiarity recent developments.
Proof of license, and that you can understand, explain and operate at least 90% of the functions on a radio in order to buy.
If I wanted to be an old timer, I'd also require construction of something...knowledge of the history of ham Radio.
Then being more modern, something like proficiency in software, digital modes and satellite ops.
Gee, I should spend more time on these.... not. More important fish to fry.

Sorry, guys, I just couldn't resist a little chain jerking here.
73, Steve, K9DCI

At lease I got sc to answer a few questions ... sort of.

Ladies and Gentlemen,

For those of you who have been bombed by posts from "kb9...@yahoo.com" from an Amateur Radio forum, allow me to introduce you to the author, Mark C. Morgan.

Mark is a very disturbed, admittedly deviant and dishonest person who has been harrassing an Amateur Radio forum since at least 1997.

As part of his on-going fusillade in that forum, he has at various

times insisted that he's a "colonel" in the US Army "chemical corps", further insisting that he's been "drafted", and further insisting that he was not allowed to "resign". Never mind that he was only 8 years old when the draft was stopped in the 70's! He's since recanted that claim to only be a Lieutenant, then only a sergeant that was discharged

due to his "nerves".

Mr Morgan has perpetuated a smear campaign against other members of that forum, going as far as post-editing comments, forging posts, and even trying to make "complaints" to the Civil Air Patrol Inspector General Corps about perceived sleights that have nothing to do with CAP.

This is nothing more than an attempt by Morgan to "silence" those who would expose his foolishness and not tolerate his dishonesty in a public forum.

Mr Morgan has admitted to various acts of perversion and deceit, going as far as bragging about his use of lying and his belief that deceit should be proactively taught to children as part of thier upbrining.

Mr Morgan has even gone as far as to create multiple screen names with which to spam that forum, including one screen name that invokes the name of my deceased daughter in order to perpetuate his "point".

Be aware. Be informed. Mark C. Morgan is NOT a person of reputable character or honest nature.

from CAP in various offices

but unlike Maj Robeson I don't go in any forum accuing anyone that
disagress with of being a rapist and a child molestor this SOP for Maj

I can't believe this shitstain of humanity is still trying to bust my balls knowing that I have him killfiled. He is so deluded in his thinking that whatever I post, he assumes that it is about him, and humps my leg at every opportunity. He thrives on negative attention, and gets plenty of it between RRAP and RRCB and no doubt other groups as well. I think if he can sit and post all day, then he should be able to work at some sort of job, instead of depleting the already overburdened entitlement programs. Markie-tard needs to take his own advice and "gte hlep".

I LOVE it when a functionally illiterate idiot suggests that
others "learn how to spell" but then can't put ONE sentence together
without screwing it up!

Well well, Markie-tard accuses me of stealing someone's email addy that I
typed in by mistake (I forgot to put 555usb in my addy), and the hypocrite
intentionally forges posts. What irony. I also see that he has RRAP in as
much disarray as he has RRCB, which is a damn shame as both groups could do
without his nonsense.

Lame try. First thing that gave you away was the use of punctuation. The second was your header which you are to stupid to change. Though it's good to see that you are true to your nature, posting homo related nonsense to a CB newsgroup, though you need not forge, as Markie-tard as he has his own issues to deal with, as do you.

You STILL haven't made a point of what CAP has to do with the
on-goings in this NG, OTHER than you trying to intimidate me yet again
into NOT posting against you.

This is absolutley NO DIFFERENT than when you tried to "impress"
me with your alleged appointment as a "colonel".

And the results are the same: you are proven to be a liar.

No, just proof that you ahve nothing else to fall back on other
than hoping that CAP would intervene and let you lie, cheat, deceive
and otherwise be a pest without pause.

On RRCB he stated that he was a Kentucky Colonel. I would like to know what hoops he allegedly jumped through to obtain that status.

Dr Death has gone out of his way as of late to defend markie-tard.

We all knew the doctor was probably a homosexual and his actions proved it. Dr Death protested too much! All of his posts making threats to markie-tard were only to cover his own homosexual feelings. Could this be why his own daughter has become the teen age head queen? Like father like daughter?

Did dr death actually teach his daughter the proper method to working a cock? AND HE CALLS MARKIE A MOLESTER!!!

Do tell doc, do tell!!!!

CAP is a professionally run and "disciplined" organization, Mork.

Their standards are pretty strong.

That's why mental health idiots like you aren't allowed to hoin.

Mork, the words out on you.

Notice that I am still a member of CAP after your LAST

All it took was showing them your "I am a colonel" posts and your
"yes, I lie, and I do it all the time" posts.

Let's see. You went from first saying that you weren't going to answer the
door to the Heils, to calling them stalkers, to next claiming that "you"
weren't home but your 'girlfriend' was there while "you" were at the store.
Now you are saying that this visit "supposedly" occurred.
You are a maniacal liar, Woger.

Ladies and Gentlemen,

For those of you who have been bombed by posts from
"kb9...@yahoo.com" from an Amateur Radio forum, allow me to introduce
you to the author, Mark C. Morgan.

Mark is a very disturbed, admittedly deviant and dishonest person
who has been harrassing an Amateur Radio forum since at least 1997.

As part of his on-going fusillade in that forum, he has at various

times insisted that he's a "colonel" in the US Army "chemical corps",
further insisting that he's been "drafted", and further insisting that
he was not allowed to "resign". Never mind that he was only 8 years
old when the draft was stopped in the 70's! He's since recanted that
claim to only be a Lieutenant, then only a sergeant that was discharged

due to his "nerves".

Mr Morgan has perpetuated a smear campaign against other members
of that forum, going as far as post-editing comments, forging posts,
and even trying to make "complaints" to the Civil Air Patrol Inspector
General Corps about perceived sleights that have nothing to do with
CAP.

This is nothing more than an attempt by Morgan to "silence" those
who would expose his foolishness and not tolerate his dishonesty in a
public forum.

Mr Morgan has admitted to various acts of perversion and deceit,
going as far as bragging about his use of lying and his belief that
deceit should be proactively taught to children as part of thier
upbrining.

Mr Morgan has even gone as far as to create multiple screen names
with which to spam that forum, including one screen name that invokes
the name of my deceased daughter in order to perpetuate his "point".

Be aware. Be informed. Mark C. Morgan is NOT a person of
reputable character or honest nature.

Ladies and Gentlemen,

For those of you who have been bombed by posts from
"kb9...@yahoo.com" from an Amateur Radio forum, allow me to introduce
you to the author, Mark C. Morgan.

Mark is a very disturbed, admittedly deviant and dishonest person
who has been harrassing an Amateur Radio forum since at least 1997.

As part of his on-going fusillade in that forum, he has at various

times insisted that he's a "colonel" in the US Army "chemical corps",
further insisting that he's been "drafted", and further insisting that
he was not allowed to "resign". Never mind that he was only 8 years
old when the draft was stopped in the 70's! He's since recanted that
claim to only be a Lieutenant, then only a sergeant that was discharged

due to his "nerves".

Mr Morgan has perpetuated a smear campaign against other members
of that forum, going as far as post-editing comments, forging posts,
and even trying to make "complaints" to the Civil Air Patrol Inspector
General Corps about perceived sleights that have nothing to do with
CAP.

This is nothing more than an attempt by Morgan to "silence" those
who would expose his foolishness and not tolerate his dishonesty in a
public forum.

Mr Morgan has admitted to various acts of perversion and deceit,
going as far as bragging about his use of lying and his belief that
deceit should be proactively taught to children as part of thier
upbringing.

Mr Morgan has even gone as far as to create multiple screen names
with which to spam that forum, including one screen name that invokes
the name of my deceased daughter in order to perpetuate his "point".

Be aware. Be informed. Mark C. Morgan is NOT a person of
reputable character or honest nature.

They already have Mork's "number".

You don't try to file a complaint to a very pro-veteran,
pro-military organization when your three biggest USENET arguments are
defending your fraudulent "commission", promotion of lying, and sexual
deviancy.

He's canned. And if he ever tried to join CAP in Michigan (or
anywhere else), he'll be refused.

yo u can try to hide but if anyone is reading the NG from CAP then you
ar just calling that much more attation to your misdeeds

and calling me a Child molestor and my wife a man are misdeeds

pitythe lawforbids deuling then you would dare say such things

I call you what you are a Coward
.....

You? In a duel with Steve? Shoot (no pun intended), you've already come to a
battle of wits with no ammunition, Morkie.
And besides, about the only thing you'd shoot is your foot...the one that's
not in your mouth, that is.
Now why don't you stop spamming, Markie. Act like an adult. Get over your
fixation with Steve and stop spamming. One Wiseman out here is enough.
Grow up, Mark.
Life is difficult, but it's more difficult if you're Mark Morgan.

The "argument" is moot when they see YOUR claims of being a field
grade officer when you weren't, coupled with your avowed use of
dishonesty, Mork.

In otherwords, "they've got your number".

Do they need to?

CAP's a non-combatant organization.

But to answer your question, Morkie, they've seen my SRB.

2860. BEWARE OF MARK C MORGAN!

Ladies and Gentlemen,

For those of you who have been bombed by posts from
"kb9...@yahoo.com" from an Amateur Radio forum, allow me to introduce
you to the author, Mark C. Morgan.

Mark is a very disturbed, admittedly deviant and dishonest person
who has been harrassing an Amateur Radio forum since at least 1997.

As part of his on-going fusillade in that forum, he has at various

times insisted that he's a "colonel" in the US Army "chemical corps",
further insisting that he's been "drafted", and further insisting that
he was not allowed to "resign". Never mind that he was only 8 years
old when the draft was stopped in the 70's! He's since recanted that
claim to only be a Lieutenant, then only a sergeant that was discharged

due to his "nerves".

Mr Morgan has perpetuated a smear campaign against other members
of that forum, going as far as post-editing comments, forging posts,
and even trying to make "complaints" to the Civil Air Patrol Inspector
General Corps about perceived sleights that have nothing to do with
CAP.

This is nothing more than an attempt by Morgan to "silence" those
who would expose his foolishness and not tolerate his dishonesty in a
public forum.

Mr Morgan has admitted to various acts of perversion and deceit,
going as far as bragging about his use of lying and his belief that
deceit should be proactively taught to children as part of thier
upbringing.

Mr Morgan has even gone as far as to create multiple screen names
with which to spam that forum, including one screen name that invokes
the name of my deceased daughter in order to perpetuate his "point".

Be aware. Be informed. Mark C. Morgan is NOT a person of
reputable character or honest nature.

I am starting an enema erotica contest. The good folks of Glendale have agreed to supply the prizes and the results will be edited and posted here. If you have the desire to write some steamy enema erotica and would like it posted prominently, send it to me. I will post it online and you will receive approximately $40 worth of enema equipment from my private brewery.

Here is what to include:

1. Your story. Just e-mail it in text form to me. The minimum amount of formatting the better. Plain text in an e-mail is probably best. Write slowly because I am a slow reader.

2. Your street address for me to send you the prize. Don't worry, I won't send you anything else.

3. Any preference you have for enema equipment or anything else you want that has a value of $40 or so let me know. I will see what I can do.

Rules: You cannot lift or copy these stories from another site. You should create the story yourself. There is no minimum length or maximum either. Figure a solid page is a good start. There is no deadline. Winners are chosen and posted at any time.

The contest is open to anyone worldwide (except Steve and Wisemen). I will ship prizes to over 70 countries so I should be able to get a prize to you.

e-mail to me.

Mark, I could care less about you or your fans, but I had your
screen nics kill filed, along with your fans. They still respond
to you, so this constant changing of screen nics is just so you
can be sure everyone else can see your problems, well most
don't care. This is straight from your TOS, so please read carefully

(g) to bombard individuals or newsgroups with uninvited communications, data
or information, or other similar activities, including but not limited to
"spamming", "flaming" or denial or distributed denial of service attacks.

(l) to post or transmit information or communications that are defamatory,
fraudulent, obscene or deceptive, including but not limited to scams such as
"make-money-fast" schemes or "pyramid/chain" letters;

p) to generate excessive amounts (as determined in our sole discretion) of
Internet traffic, or to disrupt net user groups or email use by others;

Now I'm sure there are more than enough people that are willing to take your
posts, copy them including headers and send them to techsupport@Hughes.Net &
Abuse@Hughes.Net and make complaints, but all you really have to do is stop
responding & changing nics to bypass newsgroups filters.

I will save you posts, as I have done with the others, then kill file
your latest screen nics, but please heed this little bit of advise and
stop changing your screen nics

Ladies and Gentlemen,

For those of you who have been bombed by posts from
"kb9...@yahoo.com" from an Amateur Radio forum, allow me to introduce
you to the author, Mark C. Morgan.

Mark is a very disturbed, admittedly deviant and dishonest person
who has been harrassing an Amateur Radio forum since at least 1997.

As part of his on-going fusillade in that forum, he has at various

times insisted that he's a "colonel" in the US Army "chemical corps",
further insisting that he's been "drafted", and further insisting that
he was not allowed to "resign". Never mind that he was only 8 years
old when the draft was stopped in the 70's! He's since recanted that
claim to only be a Lieutenant, then only a sergeant that was discharged

due to his "nerves".

Mr Morgan has perpetuated a smear campaign against other members
of that forum, going as far as post-editing comments, forging posts,
and even trying to make "complaints" to the Civil Air Patrol Inspector
General Corps about perceived sleights that have nothing to do with
CAP.

This is nothing more than an attempt by Morgan to "silence" those
who would expose his foolishness and not tolerate his dishonesty in a
public forum.

Mr Morgan has admitted to various acts of perversion and deceit,
going as far as bragging about his use of lying and his belief that
deceit should be proactively taught to children as part of thier
upbringing.

Mr Morgan has even gone as far as to create multiple screen names
with which to spam that forum, including one screen name that invokes
the name of my deceased daughter in order to perpetuate his "point".

Be aware. Be informed. Mark C. Morgan is NOT a person of
reputable character or honest nature.

Well, well, well!

An ANYMOUSE hiding behind a FAKE Amateur Radio callsign.

NO licensee in the FCC database named "Sidney L. Nobles".

Yet another coward who joins the fray but hasn't got the nads to

So you say now.

Your conduct and statements in the past lend creedence to a
different beleif.

Until we see dated photographic evidence to the contrary, there's
no reason to believe otherwise that your "partner" is a male.

I do have a point.

How's that?

I've not been in the active Armed Forces since 29 May 1992.

What stalking?

Of course it has bearing.

Almost every post you make, regardless of thread title, has you whining about your "wife's" gender, yet YOU are the one who leaves the doubt, Mork.

> you have no rational reason to belive she is male

Sure I do.

You're gay. You sleep with men.

This very week alone you've bragged about having a penis in your mouth.

Then you want to have us assume your partner is a female?

YOU are the one who can DISprove the claim.

You won't do it.

You CAN'T do it.

C'mon, Morkie...Get the USA Today out and make up that sign. Then we can leave it rest. But until YOU take action to prove otherwise, all the facts point to YOU sleeping with a man.

Wait...You think Morkie would THANK anyone for helping him...?!?!

A few months ago he asked about the authorized emissions on the 60

accurate emission designators authorized for 60 meters.

Morkie responded by insulting Hans and calling him names.

Lloyd Oh my the loser is back. Hey how come I missed you at the Dalton
HamFest
this past spring? You talked all that crap and then was missing from
the air
the news group and everything. Darn Lloyd I was looking so forward to
"meating
you"! You don't have a HF rig? Damn I can remeber many nights you
jammed Dan
and I. Not only are you a LOSER but a LIER TOO! Why don't you craw back

into
that hole and just go back to hiding you worm! If you don't believe I
was there
here are some photos http://www.dirtball.com/dalton.html
I still think your a loser!
Oris
N4CND

Then you hid behind your fithy HUD apartment door when Oris came
visiting a couple of Christmases ago:
This was e-mailed to me this morning by Oris Grim an old friend.

I happened to be traveling through Huntsville, Alabama early this
morning, I deceided to stop in Athens and see just how tough Lloyd
Davies was going to act when he saw me in person.

Many of you know that a few years ago, Lloyd got smart with several
people in the Deja Newsgroup (now Google) and I issued a challenge to
him. I told him I would be attending the Dalton, Ga. Hamfest if he
wanted to continue the conversation. He said he would be there and he
was going to kick my ass.

Well, Lloyd was a no-show and continued the verbal assault on the
newsgroups. He always talks tough behind his keyboard. And, I
understand he is now doing the same sort of thing on the NIM Busters
Board.

Well, about 8.35 this morning (December 23, 2004) I located his apartment in a nasty looking section of town. I'm a pretty good sized man, but I put my gun in my back waistband after exiting the car. I located his apartment and knocked on the door. The doorbell was missing

and bare wires were sticking out of the wall. I heard someone say I'm coming and shortly the door opened with a safety chain lock still engaged. He asked what I wanted and I introduced myself and asked if we

could have a conversation. He turned white as a sheet and attempted to slam the door, but I already had a foot wedged in the opening. He started shaking uncontrollably and was shouting leave me alone, leave me alone! I told him he didn't seem so tough now face to face and then noticed a putrid odor of urine and he was pissing his pants and crying like a baby. Please leave me alone Oris he said, I was just having fun and meant no harm, please leave, please. I could see the filthy floor of this apartment and the dirty floors and the stench of a grown man pissing on himself were almost enough to make me want to vomit, and I don't have a queasy stomach. Upon telling him that this time he would escape a ass kicking and not to ever get a smart mouth with me again and a verbal yes from him, I departed. That apartment complex looked like a crackhouse, niggers everywhere, filthy grounds and stairwells. Junk cars everywhere and garbage overflowing the garbage cans.

This Lloyd is nothing more than white trash that delivers pizzas and could afford to take a trip out of town if the ticket cost $5.00.

I'm sending this to a friend who despises Lloyd Davies and he wanted to

post it for everyone to see just what kind of chickenshit asshole this Davies really is.

Oris Grimm

Just like you hide behind several different names and a post office box
instead of puttting your real address out there, Marqueer. You don't

Your own record with regard to what you've done with your amateur radio
license is abysmal, Roger. There is ample proof that all you've done is
use it to lessen the enjoyment of others. You've received more than one
official letter from Mr. Hollingsworth (they weren't commendations) and
you've been forced to retest. One more Wiseman infraction ought to draw
the curtain on your amateur radio activities.

1. Roger doesn't have a girlfriend

2. Roger first denied that we visited and rang your bell.

3. Roger changed his story, described what he saw upon looking through
his peephole and said that he didn't open the door because it was
"2
"2 on 1".

4. Roger changed his tale yet again so that his imaginary girlfriend
was there and didn't open the door, according to his imaginary
friend.

5. Roger is a notorious liar, but he has told so many that he can't
keep them straight.

I am 30 years old. I have a no-code tech ham license. I have tried for

10 years to learn morse code. No can do. I've tried and tried and

passed the General class theory in 1998. That's one of the things I'm
givin
heck about. Yes, I will wait till they drop code. I also get crap for
being
bald and overweight. The latter is going away, since I lost about 20
pounds on
a low-carb diet started at the first of the year.

[Ed Note: You haven't lose any weight, Lardass, per your neighbors and
co-workers]

The next thing is my politcal and religous views. Yes, I am a born
again
Christian. I also lean to the right on much of politcal views. Is that
a
crime I ask? I would'nt think so, but some folks think it is. I used to
post
a lot of off-topic rants and other stuff. Have not done that sort of
thing in
great qunaties in a few years now. I rarely ever post here. I did used
to
post alot about the Tiny Tenna too. But that has passed too.

[Ed Note: More lies]

Well, hope this helps you. I'm sure I'll get kicked for this post as
well as

my spelling and grammar. I sometimes have a problem convaying what I

You are an illiterate, retarded imbecile that hasn't got the mentality
to
grasp your own illiterate retarded imbecility. You don't possess the
normal traits that normal humans do - you are a useless freak of
evolution - a retarded Neanderthal that has only evolved to the point
where you can retain certain basic knowledge. The fact that your
guesses are wrong 99% of the time proves you don't know what the fuck
you are talking about. Ever.

Oh, the irony, fatass.

Saggytits Lee steps on his own tiny dick when he tried to correct
somebody else's English use first by saying one "operates" a dictionary

instead of reading it, then uses "things" instead of "thinks" in
<jewish.reggae.roger@houston-hunks.com>:
"Translation: Woger can't figure out how to operate a dictionary, let
alone correct someone else's language.But that's not surprising from
someone

Back in the day when I got my Advanced, my Tech class Elmer pointed out that if you don't know the code, how do you know what repeater you're on?

Most automated identifications are still Morse code and it is still legal.

It is sad that Morse code is so under utilized. It is a testimony to the lack of interest in the greatest tool for weak signal work. If you have no interest in learning Morse code, than you affirm that your communications capabilities should be limited to voice capabilities. Who in emergency communications believes that their capabilities should be limited by a lack of expertise? Perhaps they believe that emergency commumications should be restricted to FRS? Rediculous!

Still, we see even avid DXers throw in the towel on a weak one when Morse code would have cut through the pile-up in a heart beat. A friend in High School made DXCC in 2 years on CW only, with a 100 watt radio and dipoles!

The fact remains that those who hate the code are clueless to its effectiveness. Their only defense is ignorance. Sad!

Well Steve, I should have expected as much.

I only wanted to talk radio with Mark and assure him he is a welcomed and valued member of the amateur radio community.

News alert, Steve: I don't care about the type of sex people have in their private lives. I am comfortable enough with myself that I have no need to attack others. Hey, If they're happy and it does not affect me......then it's NONE of my OR YOUR business.

AS far as "CAP" goes, you are nothing more than little boys with too much time on your hands. A major in CAP! hahahahahaha...........kind of like being a captain of a pleasure boat! It's same thing and equally useless.It's funny as hell, why with the silly uniforms and the like,but useless.Whens the last time we saw a fleet of piper cubs flying in formation into battle? LOL !!!!!!!!!!!!

Steve you are a loser. Then you have the nerve to wonder why Mark does ot post about radio! YOU proved why! YOU AND YOUR BAND OF LOSERS WON'T LET HIM. Mark and I had a great exchange about radio. You still had to attack him for no reason. I wanted to prove a point. I knew Mark would talk about radio if given the chance. I KNEW he is a good guy who likes radio. It's you Steve who has destroyed the ham and cb groups with your hate. I'm outta here you dam loser!

"KC8JBO is an idiot in my opinion." -- Stephen K. Gielda, owner of
COTSE, in message <MPG.158a2f2795d3db95989ba5@news.supernews.com>

"Now, now, after I feeling sorry for you after reading your 'what it's

I never had to depend on some ragged-assed fucked-up stoner such as

In message <a19ubh$e7u$0@pita.alt.net>, the regulars voting for the alt.flame awards elected Roger Wiseman as: Most Boring Writer, Worst Flamer, Fuckhead of the Year, Most Tenuous Spankclaim, Best Punching Bag, Most Unwelcome Comeback, and gave him the Golden Peewee Award for most Blatant IKYABWAI.

==========
In message <a1vltu$hb8$2@dosa.alt.net>, Roger Wiseman tells Billy Daugherty that the bribe for a ham license is "$10.00, stupid. But you're too stupid to get $10.00 because you usually spend your money on crack cocaine."

and then lied about it in message <a29deo$go7$0@dosa.alt.net>, where he wrote:

"Get the SPERM out of your eyes, It says 'flame_fest,' fuckhead. And quit post-editing, you degenerate."

==========
Wiseman insists in a sig that the peak voltage for 120V rms is 169.69 volts, when the correct value is 169.71 volts. He then calls it peak-to-peak voltage, when the actual value for that should be 339.41 volts. Wiseman: electronics moron.

You made good points until your last paragraph. I do not have the time nor
desire to learn the code. If I were to learn it long enough to pass the test
and never use it from day to day, then it will soon be forgotten. I think
that if a person wants to advance, code should be part of the process and
tested on a regular basis, but also have restrictions for those that do not
or cannot use code or the hobby will fade away. To do away with the code
would be wrong as it has it's uses, but to expect everyone to learn it keeps
fresh blood from entering into a noble but dying hobby.

No. If they're too lazy to learn CW they can stick with CB, FRS, Cell Phones, and two tin cans with a piece of string in between.

Maybe you have a few CB buddies you'd like to see get licensed, and dumbing things down will help, I don't know. Outcome based licensing. No one wants to be a ham if they have to work a little harder for the license and so no one wants to support having a good test to get one.

after you just lied clearly Lloyd davies passed something to get his
license
(and, unlike Wiseman, Lloyd didn't receive any "fan letters" from Riley
Hollingsworth nor was made to take his Ham Radio tests a second time in
order to keep his license)

Another self proclaimed superior ham perpetuating the myth that CBers are
too dumb to pass the test. Keep that rift between hams and CBers and your
hobby will die an agonizing death. You have yourself to blame.

Interesting that the way that Oris spells his name is "Grim" NOT
"Grimm". Did you miss that fact, moron.

NNTP-Posting-Host: ^4\.22[4-8]\.

where the last one kills all posts from superfeed.net, possibly a
second NSP of his. Lately, I've also killfiled all posts which
contain the string "googlegroups.com" in either the Message-ID header
or in the References header. That kills all Google posts and all
followups to them, and cleans up the rec.radio hierarchy very nicely.

Only lusers use Google to post anyway, so it's no loss at all to
killfile the whole site. If you check news.admin.net-abuse.usenet,
you'll see that there's an active discussion about disconnecting
Google from Usenet entirely (other news servers will refuse to carry
Google posts at all). It seems that Google is the biggest problem
source all across the news groups, and the admins are fed up with
Google's lack of responsible action.

You surely know what a troll is? The basic idea is to post a message in two or more newsgroups who clientel are unlikely to agree, and see if any flame wars occur.

Obviously a common sport still, Never mind, ignore it. Brian

Hey, Lardass, try putting a question mark after a question, dumbass.

No, Lardass, they are aimed squarely at you and hit right on the bullseye. Like I have always said, you are an imbecile who doesn't know what he's talking about. I just *proved* it (as if it were needed...), now go take your anti-depressant medication and shut the fuck up.

You know, Porky, it's always a pleasure to see you make a fool of yourself and to PROVE that you are a clueless idiot and you should probably avoid discussing
something so obviously you know nothing about. So you should log off the internet permanently and shut the fuck up now.

Headers can be deceiving. I don't use OE, although I let my news reader generate generic OE headers for reasons of my own. I use one of two free news readers (Xnews or slrn) to do the filtering, depending upon which computer I'm using. Both can handle regular expression string matching on any part of a post, and that's what needs to be done in order to deep six the nym shifters.

Steve ...

You seem to be quite literate in being able to killfile by other than poster name. For those of us using Outlook Express as our newsreader, could you possibly (or some other OE literate person) give the rest of us some plainly worded hints as to how to get rid of these jerks that have taken over one group, mostly taken over a second group, and are working on the third group.

You would be doing the community a great service.

Yes, they should've snipped your drug using daddy's gonads so you
couldn't be born, fatass!

Saggytits Lee steps on his own tiny dick when he tried to correct
somebody else's English use first by saying one "operates" a dictionary

instead of reading it, then uses "things" instead of "thinks" in
<jewish.reggae.roger@houston-hunks.com>:

"Translation: Woger can't figure out how to operate a dictionary, let
alone correct someone else's language.But that's not surprising from
someone
who things that..."

> How totally whacked out you are, <IKYABWAI>

What a whiny cunt you are, fatass. Now go whine because the ATV's are
buzzing around that run down farmhouse at 3 AM again.

Saggytits Lee manages to fumble again when he tried to backpedal on his

improper use of words by once again mangling the sentence in reply
<gweasy.long.hair@houston-hunks.com>:
"The word "operate" can be a synonym "use" in certain contexts"

Saggytits Lee (SLee@houston-hunks.com) talks out of his fat ignorant
ass again in:
<secwet.googley.woger@houston-hunks.com>:
"did you know, Woger, that some of the anonymous remailers are operated

by the CIA?"

Saggytits Lee fucks up again and thinks Roger Wiseman has "long hair"
in <st.paul.hates.wogers.hair@houston-hunks.com>:
"Long hair like yours"

Saggy tits Lee, unthinking fuckwit, apologizes and makes excuses for
his lack of rational reasoning ability in Message-ID:

Backpedal Boy Faggot Lee admits he's a poor bastard in

"Unlike the rest of us poor bastards..."

Stagger Backpedal Boy Lee who claims to be an expert on everything
electronic/computer
reveals why he's such an "expert" because he plagiarizes from other
sources in <woger.steps.in.anotherpile@houston-hunks.com>:
"I finally quoted the Intel literature..."

BACKPEDAL BOY Lee <StaggerLee@houston-hunks.com> whined that he
celebrates his half-black heritage by
observing Kwanzaa, and validating the fact he is an illegitimate
whore's child in <it.was.something.to...@houston-hunks.com>:
"A holiday made up by a convicted felon? You bet I celebrate
it."

In article <stupid.imposters@houston-hunks.com>
Stagger BACKPEDAL BOY Lee <SLee@houston-hunks.com> the "BOY Blunder"
whined more netcopping
threats and erroneously got the idea I was on AOL in his stupid
statement:
"Stop impersonating Lloyd, Woger, or you could lose your AOL account
again. All Lloyd has to do is to complain."

BACKPEDAL BOY Lee <SLee@houston-hunks.com> whined that he celebrates
his half-black heritage by
observing Kwanzaa, and validating the fact he is an illegitimate
whore's child in <it.was.something.to...@houston-hunks.com>:
"A holiday made up by a convicted felon? You bet I celebrate it."

Plagiarising hypocrite BACKPEDAL BOY queefed his hypocrisy in

"I doubt that you copied his noriginal post, but suspect that
you both copied yet another post.
..the Google database has foiled you again and simultaneously
dashed my briefly entertained thought that you might be capable
of writing coherent sentences after all."

Blonde joke stealer Fuckup "BACKPEDAL BOY" LEE whined
and still manages to fuck up the word "it's" and manages never to learn
anything
in <a75t70$3b...@dosa.alt.net>:
"Just like a dog doing its job on the carpeting, your nose must
be rubbed in your plagiarism. Unlike a dog, you won't learn anything

of Chicago when he
returned from the Pacific theatre, and that's how he met my mother."

Fuckup Stagger Lee <SLee@houston-hunks.com> proves he's as ignorant of

music as he is in everything else when he utters the following
stupidity in <k8mn.is.a.god@houston-hunks.com>:
"Eric Clapton even wrote a song about Leila!"

"Stagger Backpedal BOY Lee" <SLee@houston-hunks.com> blathered more
idiocy when he tried to backpedal out of his fuckup in message
<ab8mq.cant.touch.k8mn@houston-hunks.com>:
"On one of the most complete web sites of Eric Clapton music
(http://www.netmusicitalia.it/spot/archivio/v.html), we read that one
of the selections is:
2/01 Vidal bagnoschiuma Eric Clapton "Laila"
which is, of course, a different composition than the more familiar
"Layla" that SWR Boy was trying to discuss. Composed during a Clapton
visit to Helsinki, it was inspired by a gracious host named "Laila" --
the wife of then Assistant Ambassador David Heil."

Stupid Lee (Stagger Lee@ houston-hunks.com) provides yet another
example of his idiocy in
<way.way.beyond.woger@houston-hunks.com>:

BACKPEDAL BOY SLee@houston-hunks.com (Stagger Lee) talks tough, yet
fails to deliver
(I'm still waiting to lose my ISP) in

Anonymous coward and all-around Fuckwit "Stagger Lee"

message <3C36FDCC.76EC1...@houston-hunks.com> :
"Therefore, I find your story difficult to believe. Your own anonymous

Faggot Lee slurps the ass of others, yet he fails to see the irony in his blather of UKYABWAI in <3D17BD4C.8A1D1...@houston-hunks.com>:
"Pathetic sycophant."

Fuckwit Lee <S...@houston-hunks.com> proved he is a no-balls coward when he added to his posts

Fuckup Lee fucks up as usual getting his facts straight about a retest letter which clearly indicated Wiseman was to retake the General exam, the DCC letter gives no specific reasons why

You sure don't! Also a very bad assumption and groundless..Also wrong,
not to mention irrelavant to my words and position. I said that I already
know *HAMS* who came from the CB side (only because they either told me
directly, or I overheard then discuss it on the air) ---whom I met as Hams.
They are top notch hams in every way.
I don't do CB, but have an old Morotola 40 CH AM unit because I want to
have as much communications capability to handle any eventuality in an
emergency. It would have been helpful in a serious malicious repeater
interference situation a number of years ago when I didn't have even 27 MHz
receive capability and it heloed solve and catch the perps.

> Outcome based licensing.

You'll have to explain the meaning of this.

> No
> one wants to be a ham if they have to work a little harder for the license

False generalization " On one..." and "harder" than what?

This was dis proved by one of the posters responding to you who said somethin like he wa looking forward to learning CW etyc... Unbeknownst to you, there are people who do value things for their own sake and will enjoy the feeling of self accomplishment..

> and so no one wants to support having a good test to get one.

Well here *IS* one. I support a much harder test in the areas I previously outlined. I *DO* agree that the CW hurdle can be one which makes us value the license to a significant degree...HOWEVER, I believe it is not the ONLY thing which can have this effect, as you appear to believe. I do do CW, enjoy those contacts, marvel at the ability to QSO with any country / language with it and feel (alittle special being) part of an esoteric group that knows it. However, it doesn't make me a better person simply because I know it. My value derives from a deeper value.
Knowing that Hams were a VERY significant factor in communications for 9/11, the SE Asia tsunami and Katrina makes me feel good and I bet there were many code-less hams involved.

I'm a "techie" and would love to require everyone to build something and explain something regarding electronics in much greater depth than on the current tests. I also KNOW that this will not guatantee an all around "good" ham. I also enjoy the diversity of those I meet on the air that aren't Electrical Engineers or Technicians.

I think that if your position was valid there would haave been no jerk hams in the past, when CW was on all tests.

Why was Knowledge of Morse there in the first place? Understanding this in full context is, I believe, critical to cussions on this issue.

If you can't conceed that any of my points have any validity, than so be it. It is your right. But I find you very closed minded and unable to intelligently discuss a complex issue in a mature way. It is your right and I'll also deffend your right to have your opinions. If for no other reason, it allows me (and hopefully others) to more firmly and intelligently form and understand mine.

73, Steve, K9DCI Always willing to show my true identity. and hopefuly express thoughtful and well reasoned viewes along with correct and understandable technicial explanations for others.

indeed as I hear the tales the FBI's visits were the result of the FBI
being fooled into thinking he was selling Kiddy porn when it was just
Wismen (pised at him for either asking him or sex or refusing him for
sex, the story varies) post a barrage of email claiming to Davies
himself and to be selling kiddy porn

at one time you could tell such a crude lie and get the FBI to jump

so what?

As I said in another post, I don't really use OE. You can go to http://www.download.com/3000-2164-10144167.html and find a free newsreader called xnews which will use the filtering expressions I listed. It borrowed its scoring system from another free news reader called "slrn," so that either news reader will work with the same set of rules. I use slrn under Linux and xnews under Windows.

Xnews doesn't need to be installed. You just extract it from the distribution zip file and start running xnews.exe immediately. Setup takes place the first time you run it.

If you insist on using OE, you can download the free program called Nfilter. It runs in series with your current news reader to add additional filtering abilities. It isn't maintained any longer, but is available from http://www.nfilter.org/

I'll publish part of my current score file, even though it will give some of the nym shifters additional info. The xnews / slrn score file allows you to specify filtering rules for each news group or for a collection of groups. You do that by enclosing the name of the group(s) in square brackets.

After the bracketed name of the groups, you specify a score. I don't bother with elaborate scoring, and instead give all matches a score of -9999. That causes the matching posts to be killed.

So, for all of the rec.radio.amateur hierarchy, plus the flame_fest news group, you can use the following score file (lines starting with "%" are comments). Text case is ignored by default, so "get help" matches "GeT HElp" when specified below.

```
======(cut here)======
[rec.radio.amateur.*,alt.radio.scanner.flame_fest]
score:: -9999
```

```

The score file above catches about 90% of the bad guys, even with Google posts and followups still allowed. If you block Google posts and followups, you can omit quite a few of the other rules.

Hehhhhhh :)

That little ball is a magnet. It's what actually attracts and catches
those snippets of radio wave that are hovering all around you.

See? That's why coat-hangers never work as antennas.

;)

And supposedly aluminium can be used to amplify certain wavelengths.
Which is why tin-foil wads on the ionosphere also improve reception.

You see stuttering in typing? That might lend credence to my theory
that you suffer from the verbal form of Tourettes syndrome. You can't
deny you're description of what you/Roger/various sockpuppets saw or
your claim of "2 on 1". I'd be happy to repost your statement to

Tell us how you see your own lifestyle, Roger. The filthy comments you spew about the wives, sisters, children and parents of others--what do those represent? The way you've used your amateur radio license to lessen the enjoyment of others--do you think that's a positive thing? Your run-ins with your local police--what have those accomplished?

Coat Hanger make great Antenna for Walking About.

Leave the Coat Hanger in the Coat.

It is a shame that Wiseman is such a low-life bottom feeder that he feels it is "sport" to make caustic comments about a much loved, deceased daughter of a fellow Ham.
Remember that Wiseman is delusional at best. He hears voices. He believes that he is an avenger, a 'liberator' through lies and make-believe. His entire life is a fantasy.
He has lived with demons for most of his life and can no longer keep them at bay despite his many medications. No matter how tightly Woger closes his blinds, shuts himself off from reality, he cannot keep the demons at bay. The demons keep slipping through, howling, keening, and haunting to prey upon what is left of Roger's decaying mind.
Roger has closed the shades of his mind, but the demons are always there, yowling and taunting and he cannot shut the voices out. Oh! The pain! He'd give anything if these demonic leopards would give him but one day of peace. One day of normalcy. But the demons are always there and he hears their pained cries even as he clasps his hands over his ears and cries out in silent agony. His is a tortured soul.
Forgive Roger if you can. Pray for him if you can't.

Langley Park had just recently bought two (2) printing presses for the purpose of publishing The Demented Otaku Magazine (DOM). The magazine will take the place to the Demented Otaku BBS and Demented Otaku Lolicon board. The boards were shut down after some rat bastards complainted to Ctitech that the site contained child pornography. So to by pass the problems with Ctitech we will publish the material with the printing presses.

The first ads in DOM have already been sold to the Miller Brewing Comany and will feature Mark Morgan, kb9rqz, as its Spokes Orifice. He will be shown in the ads with anime characters helping him enjoy Miller beer in his own special way.

So Ctitech, "NEENER, NEENER, NEENER!!!!"

These are the numbers of current, unexpired
amateur radio licenses held by individuals
on the stated dates, and the percentage of
the total number of active licenses that
class contains:

As of May 14, 2000:

Novice - 49,329 (7.3%)
Technician - 205,394 (30.4%)
Technician Plus - 128,860 (19.1%)
General - 112,677 (16.7%)
Advanced - 99,782 (14.8%)
Extra - 78,750 (11.7%)

Total Tech/TechPlus - 334,254 (49.5%)

Total General/Advanced/Extra - 291,209 (43.2%)

Total all classes - 674,792

As of June 1, 2006:

Novice - 25,083 (3.8%) [decrease of 24,246]
Technician - 280,995 (42.7%) [increase of 75,601]
Technician Plus - 38,704 (5.9%) [decrease of 90,156]
General - 133,169 (20.2%) [increase of 20,492]
Advanced - 72,179 (11.0%) [decrease of 27,603]
Extra - 108,140 (16.4%) [increase of 29,390]

Total Tech/TechPlus - 319,699 (48.6%) [decrease of 14,585]

Total General/Advanced/Extra - 313,488 (47.6%) [increase of 22,279]

Total all classes - 658,270 (decrease of 16,522)

Note that these totals do not include licenses
that have expired but are in the grace period.

They also do not include club, military, RACES
or other station-only licenses.

Note also that effective April 15, 2000, new
Novice, Technician Plus and Advanced licenses
are no longer issued.

Since April 15, 2000, FCC has renewed all existing
Technician Plus licenses as Technician. It is therefore
informative to consider the totals of the two classes,

since the Technician class includes a significant number of Technician Plus licenses renewed as Technician.

What is "obessed?" Is it big and black like obsidian?
You are really dysfunctional. So dysfunctional that you
can't stand it if you don't make the last post. That is
exactly how Wiseman is.

You are a Wiseman clone, dysfunctional boy. Everyone
despises you and laughs at you.

My point has been made. Now I'm gone from this thread.

I have lived with demons for most of my fifty years and can no longer keep them at bay. No matter how tightly I close my blinds, shut myself off from reality, I cannot keep the demons at bay. I hear their voices in my head, voices coming from the attic, voices coming from the basement (NO WAY I'm going down there), and even the street lights whisper to me.

TYPICAL HAMSTER STUPIDITIY

Two ARRL members from California are dead after the vehicle in which they were riding during a mobile hidden transmitter hunt May 27 went over a cliff in rugged terrain near Lake Isabella in Kern County. They were identified as Michael G. Obermeier, K6SNE, of Anaheim, and David A. Gordon-Ross, N6IDF, of Yucaipa. Obermeier, an ARRL Official Observer in Orange County, was 46. Gordon-Ross was 35.

"Mike and Dave were some of the best T-hunters in the biz," said Scott Press, N6SAP, calling both "true assets to this hobby." In his role as an OO, Obermeier reportedly had participated in the infamous Jack Gerritsen radio jamming case in the Los Angeles area.

According to media accounts, a Kern County Sheriff's Department search-and-rescue team located the victims early Monday, May 29. Obermeier was driving the 1991 4-wheel-drive Jeep Cherokee that apparently went out of control on Cook Peak Road while the pair was proceeding to the next hidden transmitter site. After caroming off a rock wall, the vehicle crossed the road and plunged down a 900-foot cliff. They were reported missing after failing to check in with T-hunt organizers.

Greg Pitta, KF6DBJ, reports Obermeier and Gordon-Ross were on a half-day multiple-transmitter T-hunt. "Both K6SNE and N6IDF were expert transmitter hunters, each with hundreds of hunts completed, ranking with top scores in most," he said.

ARRL Amateur Radio Direction Finding (ARDF) Coordinator Joe Moell, K0OV, knew both men. He notes that Obermeier had suffered a sports-related spinal cord injury that left him a paraplegic. "He did all the adaptive work on his vehicles, of which he had quite a few that he used over time for RDF," Moell said. Despite his physical limitations, Obermeier also enjoyed foxhunting from his wheel chair.

Moell says Gordon-Ross had been a proficient mobile T-hunter for many years. He took a brief hiatus after his first child was born in April 2005 (his wife, Melanie, is KF6GWV), but he recently became active again.

According to Moell, the mobile transmitter hunts take place on the fourth Saturday of each month on 2-meter FM simplex, starting out from a hilltop in Rancho Palos Verdes. He says it's not uncommon for the main hidden transmitter to be hundreds of miles away--175 highway miles in this instance.

The 147.435 Amateur Radio Repeater System is collecting donations to help Melanie Gordon-Ross, a stay-at-home mom. It also will donate all proceeds from its 16th annual 435 Chili Cook-off June 10. Visit the 147.435 Web site

No, my wife has nothing to do with any of this. Why not respond to what I've asked you? What about the material you post to usenet? Your comments about my wife are an ample illustration. You post filth about the wives, children and parents of others.

Isn't that an interesting supposition on your part? My late father was in the Navy from 1943 through 1946. "Preisthood" is spelled "priesthood" and he didn't enter it until fifteen years after the end of WWII. He molested no one, ever. You've simply provided another illustration of what you do on usenet. I make no such posts and I post only as myself. I love your sentence

coward". Hilarious.

> Funny how you've always said you had somebody

It's hard to find out. After the single ARES meeting he attended, he
skedaddled so fast, there was no time to find out. Perhaps you thought
I brought my wife along as protection to your home. You could have
stepped outside to find out. You didn't. The only place that you're
brave and bold is in sock puppet guise on usenet. I don't think you're
simply being paranoid, Roger. After all the stuff you've pulled, there
are quite likely, folks out to get you.

First off, Markie, I have parents. I have a mommy and daddy, just like you.
OK, so you have one up on me. You know who your mommy and daddy are and I
don't. I know who my mommy is, but just because I don't know who my daddy is
doesn't make you better than me, dumbass. Big fucking deal.
I grew up without a lot of parental influence and I turned out just fine,
didn't I? I have a degree and almost have another one, unlike you who had to
get a GED when you turned forty.
I own my own house and it is paid for, unlike your HUD apartment, Pizza Boy.
I have a nice car with low miles on it and my Yugo is paid for, unlike your
car Pizza Boy.
Unlike you, Markie, I am a veteran. I spent four years in the Air Force
cleaning toilets and washing tables in the officers mess hall. I got to know
a lot of powerful Lt. Colonels, Seamen (a Navy thing) , and Generals and
have influential friends in high places. You still look for Boy Scouts to
give you enemas. The younger the better, right?
At least I learned how to drink beer the right way, Markie. I swallowed it
and didn't pour it up my ass like you prefer.
My offer is still open, Markie Boy. Come visit me any time you want if you
have the balls. If you do visit me you better bring a buddy. Why? Because
you will need a buddy to cover my back door to watch me run out of the back
of my paid for house while you are knocking on my front door. Dumbass Hi-El

should have sent his wife around to my back door when he visited. They didn't see me sneak out and take off down the alley.
Oh, wait. I wasn't home when Dave claims he knocked on my door. I was at the store. That is my latest lie and I am sticking to it. My mail order girlfriend was home, but I wasn't. If Dave would have looked in the window he'd have seen my girlfriend on the couch. I inflated her just a few moments before he arrived.
So there, dumbass.

The FCC is not requiring specific testing for PSK31, RTTY,
Hellschreiber, Olivia, etc. and all those modes seem to be used pretty
extensively on all the bands. Not to mention, programs like MixW and
especially MultiPSK do an excellent job of sending a receiving CW. I see
all the modes continuing to flourish in the future even if a specific
test for one mode (CW) goes away.

Yes. Using Xnews, I can accomplish the same thing. I have
googlegroups.com killed off in quite a few groups.

Naturally, posts there can be reported to abuse, if you go to google
groups and flag the articles to be sent to abuse.

Of course, who is to say Google pays the slightest bit of attention to
abuse complaints.

It is indeed peaceful. I see very few flame posts. Those people simply
do not exist to my newsreader.

Xnews is one of the two news readers that I use regularly (the other
is slrn). I don't understand why people don't download it and start
using it instead of sticking to clients like OE or Mozilla / Netscape.
You don't even have to install xnews - just unpack it from its zip
file and start using it.

I have reported several abusers here in the rec.radio.amateur.*
hierarchy, but I don't even get a bot reply back from Google any
longer. My conclusion is that Google simply doesn't give a damn.
Google really needs to be UDP'ed by its peers, because it will
otherwise not pay attention.

There is only one downside, and that is the large number of people who
refuse to use any news reader that didn't come with their computer or
their web browser. They eventually give up and wander away, and the
on-topic posts slow down to a trickle.

To those people: Please try the link

http://www.download.com/3000-2164-10144167.html

and download the free xnews news reader. Unpack it from its zip file
and give it a try. You'll be able to clean out the Google 'tards and
resume using the rec.radio.amateur hierarchy. Don't just wander away;
FIGHT BACK!!!!

Well, if they go unconnecting google from usenet, I will then have no way at all to post to usenet from work. That illustrious organization has a firewall that prevents connection of _any_ usenet news reader to _any_ news server, so asking a tech question in one of the computer newgroups just won't happen.

The "security" obsession is rapidly negating the usefulness of the internet. Corps and gov. agencies just keep restricting and restricting their connections, and the net keeps becoming less and less useful.

Hell, if we had to have a "secure" military the way we seem to have to have a "secure" network to serve the military, the Army, Navy, Air Force, and Marines would all just stay in the USA behind 9' high barbed wire fences, and we would lose every war that anyone decided to declare.

I think we need to look at some really sophisiticated backup, instead of these extremes in "security", so if something happens, we just roll the system back to an effective time before whatever it was happened, begin intercepting subsequent incoming attacks, and continue with a useful internet.

I happened to be traveling through Huntsville, Alabama early this morning, I deceided to stop in Athens and see just how tough Lloyd Davies was going to act when he saw me in person.

Many of you know that a few years ago, Lloyd got smart with several people in the Deja Newsgroup (now Google) and I issued a challenge to him. I told him I would be attending the Dalton, Ga. Hamfest if he wanted to continue the conversation. He said he would be there and he was going to kick my ass.

Well, Lloyd was a no-show and continued the verbal assault on the newsgroups. He always talks tough behind his keyboard. And, I understand he is now doing the same sort of thing on the NIM Busters Board.

Well, about 8.35 this morning (December 23, 2004) I located his apartment in a nasty looking section of town. I'm a pretty good sized man, but I put my gun in my back waistband after exiting the car. I located his apartment and knocked on the door. The doorbell was missing and bare wires were sticking out of the wall. I heard someone say I'm coming and shortly the door opened with a safety chain lock still engaged. He asked what I wanted and I introduced myself and asked if we could have a conversation. He turned white as a sheet and attempted to slam the door, but I already had a foot wedged in the opening. He started shaking uncontrollably and was shouting leave me alone, leave me alone! I told him he didn't seem so tough now face to face and then noticed a putrid odor of urine and he was pissing his pants and crying like a baby. Please leave me alone Oris he said, I was just having fun and meant no harm, please leave, please. I could see the filthy floor of this apartment and the dirty floors and the stench of a grown man pissing on himself were almost enough to make me want to vomit, and I don't have a queasy stomach. Upon telling him that this time he would escape a ass kicking and not to ever get a smart mouth with me again and a verbal yes from him, I departed. That apartment complex looked like a crackhouse, niggers everywhere, filthy grounds and stairwells. Junk cars everywhere and garbage overflowing the garbage cans.

This Lloyd is nothing more than white trash that delivers pizzas and could afford to take a trip out of town if the ticket cost $5.00.

I'm sending this to a friend who despises Lloyd Davies and he wanted to post it for everyone to see just what kind of chickenshit asshole this

Davies really is.

http://www.niggermania.com

As Max Rainbeer once said "Niggermania is the one stop shop of all things jiggaboo."
NIGGERmania is not a nazi, skinhead, KKK or white supremacist site. Unlike other sites you may have visited we welcome humans of any background who wish to visit, laugh and bash niggers and their apologists.
Bringing you NIGGERmania are three Webmassa's. There's Reb Biker presenting his AFN-FAQ with his site, Tom Shelly with Tom Shelly's MHR site and Raptorman's Coontact Tales.
We are often accused of being "racists" full of "hate" towards niggers and nothing could be further from the truth. The webmassas of NIGGERmania don't hate niggers we understand niggers.
Tom Shelly explains our views perfectly in this response to an email he received.
"Personally, I do not hate niggers at all, I just correctly understand that they are not human and treat them accordingly. They are nothing more than wild niggers running around loose and one must act accordingly around them. A hundred and fifty years or so ago, people in this country treated niggers accordingly and kept them contained and controlled. We made them useful by managing their numbers, containing them, and forcing them to work and be somewhat productive. But the natural empathy of the White man caused him to unrestrain a species of animal (niggers) largely due to the fact they they mimick humans in their behavior and dress. Now that the genie is out of the bottle, he can't be put back in and we're stuck with living around 30 million wild niggers.
I am never surprised when I hear stories of TNB; stories of niggers raping, torturing, murdering and beating White people. Stories from Africa of them raping babies, toddlers, and goats; drinking lizard pee and smoking their own shit to get high. The rampant disease and famine there and watching their nigglets die off by the millions while their mammies get gang-banged in the bush to pump out another litter. Nothing about niggers surprises me at all because I do not compare their behavior with that of humans.
The only way to hate niggers and to justify the old, tired whigger accusation that racists are full of hate and spread hate and all that nonsense is only if you consider niggers human. It WOULD fill me up with hate and want to get revenge if a group of humans acted the same way niggers do and created so much misery, pain, and suffering in the world. But if you consider them as the animals that they are - a separate species from human - their actions do not surprise nor cause hate at all.
But it does fill me with a sense of bewilderment as to why we allow the nigger herd to run around completely unchecked and unmanaged. The destruction and drain on society they cause is appalling."

Even if I could learn the CW, I'm too stupid to pass the written test.

I have this congenital problem, you see. Life is NOT good for me.
I suffer from Microcephalic Dwarfism and I've been afflicted with it since I
can remember.
Definition: These syndromes associate growth retardation with
microcephaly and various facial anomalies.

My forehead is smaller than that of a normal person and my cranial cavity is
little larger than that of a Florida orange. My sloping forehead has only
one advantage in that it allows me to insert it into my rectal cavity with
little or no pain. While less than comfortable, and while it impedes clear
speech I am able to keep my ears warm in the coldest of climates, but those
are the good points.

I have suffered from extreme retardation all my life and have recently been
considering placing my head in the oven. I am betting that the accumulated
yeast in my mouth will aid me in blowing my head off at 350 degrees, thus
ending it all.

You guys have no idea of what torture it is to live with my afflictions. You will miss me when I am gone.

That's ok you think I am Lloyd. It's a shame you didn't come to Dayton
and run your mouth off. You'll find out I am not Lloyd for sure and find
out the hard way. Of course, you're such a coward you would never open
the curtanis or doors and come out of your rancid house. You're just a
little piece of shit who has a big mouth and when a guy of decent size
finds you, youll get a good ass beating. Muahahahahhaha.

hmmm I wonder if the forger of this message knows that even anonymous posts
can be tracked, and that police can get the information needed to prosecute.

of course, the best would be to get a internet guru to find out his home

that civilization has. sometimes a good beating can correct all sorts of
problems.

We have "developer" accounts but are still not supposed to use downloaded
software. That makes actually developing software somewhat of a problem when
the most cost-effective tool (free) can't be used.

Failure or not, I think the Navy and Marines are going to be stuck with it. The
guys at the top are very happy with it, believe it's saving them a bundle, etc.
etc. I can't see how it can be saving any money since the charges to the
various users for a computer are monthly and are breathtaking.

As for Ada, it's still around and is actually a pretty successful language,
with a special niche of high reliability software having some significant use
of Ada. Ada 2005 is, I think, fully specified and maybe even approved as a
standard, not sure.

Hang in there, soon the Congress will pass the constitutional amendment

It appears as if the self proclaimed leader of ham radio may be on the run or in hideing from the FCC. I just read this on the K1MAN Watch website at http://host.picturewizard.com/2005-7/357648/

Where is Glenn Baxter?

ARRL affiliated stations throughout New England were very active during the May, 2006 flooding emergency there, however, K1MAN's pre-recorded radio bulletins have been largely absent from the airwaves since the FCC issued a Notice of Apparent Liability almost one year ago.

Baxter has not published IARN/AARA news with any regularity, and despite emergency activation of Skywarn, ARES, and the National Guard in New England, Baxter did not activate the IARN bulletin station for the New England emergency.

The last time K1MAN bulletins disappeared was when Riley Hollingsworth of the FCC began to seriously question Baxter's on-air activities in 1999. When K1MAN finally returned to radio he told listeners he had been "teaching school" and that his absence had nothing to do with FCC action concerning his license. As of this writing, IARN/AARA bulletins are absent from the air, and Baxter has not said when, or if, they will ever return.

Hello old friend, long time no see.

Now, as for niggermania.com it is full of allegedly true observations on a certain culture and it may 'incense' the more 'politically correct' warriors among us but by its very definition you know what the subjects going to be about and we do still have freedom of speech so why look at it?. Some of the language used may insult and shock some people but you want to hear what they say about us, what they call us and so on. Us being white US/GB citizens by the way.

Most of it is presented in an amusing light hearted way and personally the site is not something I'm involved in or condone personally, and in the long run, when you scream racism at people who have a view to express and try to stifle their freedom of speech then sites like these will always be around and grow.

Call a spade a spade I say, being frightened of someone branding you a racist for doing so.... who cares... as long as what you say is true and not just made up how can it be truly racist?

Anyhow what's wrong with racism. It's in all walks of life to a degree in some form or another. In Amateur terms it's M3's especially MM3's that get it and in uk.radio.amateur it's well noted among certain people. It is a slur against a whole group of people just because of the actions of one or two. (sound familiar?)

In football we want England to win the world cup. When we played Jamaica we were cheering the English team on and not the Jamaicans so is that racist? If you think about it, it could be thought of that way by the PC brigade.

And by the way, that works both ways round. Not just against Blacks or Asians but against whites too...

NOW... if you had not re-posted this"sick fuck's" original post I would have not noticed it or replied so why are you re-posting this for debate and not simply ignoring it??

And finally, if the term "Nigger" is so offensive why do so many black people (especially black rappers) use it to talk about their own colour then

scream at us for using the term too? Double standards?? I think so.

Regards,
Graham

I'm glad to see that you've finally started to send your followups to alt.cocksucker.roger-wiseman, Woger. As the NIM Buster's oral person of the year for 2006, you should flaunt your talents and awards and at the same time let people know that you have your own Usenet groups!

Don't let Dave Heil put you down with his condescending posts; instead, point out that Dave has *NEVER* accomplished the winning of a popular vote as you have done. The NIM Busters regulars elected you "Cocksucker of the Year" for 2006, and you should FLAUNT IT! After all, it proves to people that, Man of Accomplishment that you are, you aren't resting on laurels such as the Golden Peewee Award that the alt.flame regulars awarded you those many long years ago.

Dave doesn't have any news groups named after him, while you have many. Your admirers have created groups named

* alt.asshole.roger-wiseman
* alt.cocksucker.roger-wiseman
* alt.fag-lamer.roger-wiseman.chucklehead
* alt.fan.fatassed.woger.wiseman-dicksucker
* alt.idiot.roger-wiseman
* alt.pedophile.roger-wiseman
* alt.binaries.pictures.erotica.gaymen.ab8mq
* alt.fan.AB8MQ

while Dave can point out no similar groups of his own. And Dave doesn't have the Golden Peewee Award or the other awards you've received such as Most Boring Writer, Worst Flamer, Fuckhead of the Year, Most Tenuous Spankclaim, and Best Punching Bag.

I can't understand why you don't point those accomplishments out to Dave when he tries to make you look completely useless.

So go ahead and make Dave feel inferior. Mention your awards and accomplishments, and make him eat humble pie. He deserves it.

We're wooting for you, Woger!

Heck, my mother who was a legal secretary could go well over
100 wpm. On the old selectrics, I think she probably did 120-140+ wpm.
She made very few mistakes too. About like a typing machine..
I don't like responding while the other person is sending. At 55-60
wpm,
it could lead to some mistakes in copy.. :/ I do that on RTTY, PSK31,
but not CW. When I worked faster CW, I listened mostly in my head,
and only wrote down the important stuff like call, name.. But I sent
normally using a bencher paddle. I don't really use it like a squeeze
keyer either. More like an automatic bug. I side slap and rarely use
the squeeze method to make letters. I'm still using the same bencher
I have had for at least 20+ years.. Guess I'm getting my moneys worth..
I have a homebrew keyer that was built at the same time, and it still
works too.. :)

I'm glad to see you finally admitted you want to suck Roger off, you AIDS infested queer from TexASS!

Of course, he failshas his own group as well:
* alt.fuckhead.stagger.lee

And let's not forget he claimed that the Marshall County, Alabama ARES website was the ARES website for Marshall County, West Virginia, that SWR is not related to the transmission line loss, and that Eric Clapton wrote the song Layla for fatass Heil's ugly Finnish ex-streetwalker, not for Patty Boyd Harrison. Or how one "operates" a dictionary instead of "uses" one.

But then, ill-educated Saggytits is the product of his drug and alcohol addicted genetically inferior parents. He took the name of a fictictious negro, since that is the race of the man who fucked his whore mommy and the piece of shit that was shit out was him. He's been wondering and looking for his daddy ever since! He is also an ill-educarted fucktard, but his posts prove that.
--
"FUCKUP Lee" <SLee@houston-hunks.com> geography idiot and imbecile fucks up as usual when he thinks Marshall County, Alabama and Marshall County, West Virginia are the same place in message <afvsc2$6a...@pita.alt.net>:
" Then what is at http://www.geocities.com/skywarncanwarn/ doodle brain? It sure looks like the Marshall County ARES, and it even has a place to
send email."

Fuckup Stagger Lee <SLee@houston-hunks.com> proves he's as ignorant of

music as he is in everything else when he utters the following stupidity in <k8mn.is.a.god@houston-hunks.com>:
"Eric Clapton even wrote a song about Leila!"

"Stagger Backpedal BOY Lee" <SLee@houston-hunks.com> blathered more idiocy when he tried to backpedal out of his fuckup and lack of music knbowledge in message
<ab8mq.cant.touch.k8mn@houston-hunks.com>:
"On one of the most complete web sites of Eric Clapton music (http://www.netmusicitalia.it/spot/archivio/v.html), we read that one

of the selections is:
2/01 Vidal bagnoschiuma Eric Clapton "Laila"
which is, of course, a different composition than the more familiar
"Layla" that SWR Boy was trying to discuss. Composed during a Clapton
visit to Helsinki, it was inspired by a gracious host named "Laila" --
the wife of then Assistant Ambassador David Heil."

Stupid Lee (Stagger Lee@ houston-hunks.com) provides yet another
example of his idiocy in
<way.way.beyond.woger@houston-hunks.com>:
"That's because transmission line loss and SWR are not directly
related."

Saggytits Lee steps on his own tiny dick when he tried to correct
somebody else's English use first by saying one "operates" a dictionary

instead of reading it, then uses "things" instead of "thinks" in
<jewish.reggae.roger@houston-hunks.com>:
"Translation: Woger can't figure out how to operate a dictionary, let
alone correct someone else's language.But that's not surprising from
someone
who things that..."

I was browsing for some amateur radio related usenet groups, and
came across this group which seems to only have spam in it.
Is that all we can do is insult others on this group? there's over 6000
messages on the university usenet server I'm using in this group, I wonder
if there's even 1 piece of actual discussion amateur radio related on this
group.
I guess I picked the wrong group for finding good ham radio discussion.

I've been hiding in the closet for quite some time - but not very
successfully.
Everyone seems to guess anyway. Oh well.
I've decided to leap out of the closet this year...
After all it is a leap year!
And I like playing leapfrog with my HUD apartment neighbors!

I've had quite a few gay relationships but they all ended bad, so I
decided to stop looking for my special someone and sort of wait for
fate
to lead us to each other. In the meantime I have been concentrating on
my
web design work, which I find very interesting; even if I'm not very
good.
I still get enough rubes willing to try me. Perhaps because I'm too
cheap.

I often think, I would still like a family, a relationship, someone to
care for me and me for him. I always say that I want a very traditional
marriage, some kids, a car, mortgage and romantic dinners holding
hands,
except that it will be with a guy, not a girl. I am finding it hard to
find someone to givce my fatass the Ramrod. My friends all say I don't
try hard enough.

Any now that I can get married in New Paltz in upstate New York I don't
even have to go to SanFran.

So ... any ideas? Any of you fags want to get married?

Lloyd Davies TIME LORD AND TALK SHOW HOST

I'm loud and I'm proud. I'm gay and I like it that way!
I support Gay Pride! The Ramrod rocks my ass!

You forgot one item.... abolish the VEC program and mandate that
all candidates must test at an FCC Field Office.

Also, it would be nice to abolish transistors and madate using only
tubes, too! :^)

Tubes are for appliance operators...real hams use SPARK!!! Hmm, wonder what
a spark-gap transmitter would do to a BPL Internet deployment. Might have
to try...

Come on, that sets the bar way too low.

100 wpm CW, and 45 baud RTTY. RTTY is the wave of the future, after all.

And we add a new class called "Extra Extra Read All About It!" where you
have to copy Hellschreiber and PSK31 and copy and whistle 1200 baud packet.

Try here: http://www.anthrocon.org/
And here too! --> http://www.furry-furry.com/

THIS LOOKS TO BE RIGHT UP YOUR "ALLEY" so 2 speak. . . .

(...and from last Year's Convention....this bit:)

- This week Philadelphia plays host to Anthrocon 2005.
"Furries"-that's the term for people who dig anthropomorphic
animal culture-will descend on the City of Brotherly Love
from every corner of the U.S. Good, clean, wholesome
dressing-up-in-giant-animal-costumes fun will be had by all.

Or will it? It turns out the furry world is split into two viciously
snarling camps and rife with bizarre sexual practices.
Apparently some furries, known as "furverts," like to -fuck-
cuddly animal toys through strategically placed holes (SPHs).
Other furverts dress up in animal costumes and join other
furverts in a "fur pile." Then-according to a 2001 Vanity Fair
expose-they "yiff" and "skritch" one another, often ending
up with their fur covered in "spooge."

This activity has provoked a savage backlash-not from
"mundanes" (as we non-furries are known), but from
within the furry community itself. A group calling itself
Burned Fur wants furdom to go back to its allegedly nonsexual roots.
"If you've ever lusted after a German shepherd, own a harem
of Care Bears, or consider yourself a reincarnated unicorn,
you don't qualify," barks spokesfurry Squee Rat. "Burned
Furs are furries who are tired of being associated with lunatics."
After the Vanity Fair article, other fan groups such
as Trekkies, X Philes and Lovecrafters started calling
the furries "skunk-fuckers." .....That hurt.

"I remember when being a pervert was a bad thing,"
rants Squee Rat in her savagely anti-furvert Furry

Manifesto. "If you were warped, you tried to hide it, and good for you if you did. If you were going to polish your rod to autopsy photos or bugger a Shetland pony, you did it in the privacy of your own sick, sad home. You're making us all look bad, goddamnit." But there's also a backlash to the backlash. Other furries-many proud to adopt the furvert label-have howled in fury at the Burned Fur "hate group." The Freezing Furs claim that Burned Fur is part of a sinister conspiracy out to destroy furdom. And they allege that a least one leading Burned Furry is a "Marxist supporter of dictatorial communism."

But furrydom isn't entirely split down the middle between the spooge-spraying furverts and their prudish opponents. Amid all the hissing and spitting, a peace movement has arisen. Two groups-Furry Peace and Nonaligned Furs-are trying desperately hard to spread furry peace and love throughout the ruptured movement. Personally speaking, my hope is that the Phillie Phanatic wanders into Anthrocon 2005 and is seized by a crazed pack of furvert wolverines, dragged inside and given the yiffing of his life. That's presuming they can find his "strategically placed hole", of course.
